submitted by: Chief Executive

1 PURPOSE

- 1.1 This is the second report of 2007-08 that details our performance against national and local performance indicators and the Council's ambitions and objectives as detailed within our Corporate Performance and Improvement Plan 2007-2010.
- 1.2 Regular performance monitoring is essential to ensure that the Council is delivering effectively against its agreed priorities, both in terms of the national agenda and local needs.

2 RELEVANCE TO THE COUNCIL'S AMBITIONS AND PRIORITIES:

- Council Ambitions: Monitoring our performance allows us to ensure that we are both
 - Community Objectives: providing excellent services for our community as well as ensuring
 - Corporate Priorities: we meet the Council's ambitions and objectives, which together
 - Other Considerations: formulate the corporate priorities. Monitoring the performance of
- our locally provided services provides the key means of assessing how well we are meeting our corporate ambitions and objectives.

3 BACKGROUND

- 3.1 Performance Indicators are an important driver of improvement and allow authorities, their auditors, inspectors and service users to judge how well a service is performing and what needs to be done to bring performance up to levels which are being achieved elsewhere.
- 3.2 The report comprises two sets of information as follows:
 - The Council's Best Value Performance Indicators (BVPI's) reported by exception for each of the quarters of 2007/08. Performance is also given for the previous year. Targets for service performance against each period are also provided and a traffic light system is used to show variances of actual performance against the target as follows: Red: Service performance significantly below target (i.e. less than 75% of target performance): Amber: Performance slightly below target (i.e. between 75% and 99% of target).
 - A summary of the Council's Local Performance Indicators (LPI's) for the same period as given above. These tables are provided to allow members to ascertain how well services are being delivered against our local priorities. Performance is illustrated as above.
 - Performance against our ambitions and objectives, as listed in the Corporate Performance and Improvement Plan 2007-2010 (published June 2007), are monitored half yearly and will be reported in February.
- 3.3 Following the review of Local Performance Indicators several indicators are now categorised as data only as they are not suitable for monitoring against targets. These are marked as so in the report.
- 3.4 It should be noted that some indicators, due to their nature, are only collected annually and these have not been reported.
- 3.5 Councils are increasingly expected to include an element of prediction in their performance reporting. We have included an additional column showing expected outcomes ie is the PI expected to hit the target for the year or not. The latest notes column allow officers to make comment/produce

explanations for performance.
