

RIBBLE VALLEY BOROUGH COUNCIL REPORT TO LICENSING COMMITTEE

Agenda Item No. 10

meeting date: 15 SEPTEMBER 2015
 title: REVISION OF STATEMENT OF PRINCIPLES GAMBLING ACT 2005
 submitted by: CHIEF EXECUTIVE
 principal author: MAIR HILL - SOLICITOR

1 PURPOSE

1.1 To inform Committee of the requirement to review the Council's Statement of Principles Gambling Act 2005 as required by the Gambling Act 2005 ("Act") and seek Committee's authorisation to consult upon the amendment attached as **Appendix 1**.

1.2 Relevance to the Council's ambitions and priorities

- Community Objectives - }
- Corporate Priorities - } The Council aims to be a well-managed authority
these proposals support that objective.
- Other Considerations - }

2 BACKGROUND

2.1 The considered is its current Statement of Principles Gambling Act 2005 ("**Statement**") on 27 November 2012 at Licensing Committee and it was subsequently approved by Full Council on 23 April 2013.

3 ISSUES

3.1 The Act gave the Council responsibility for licensing a variety of types of premises for example betting offices and betting arcades. There are very few licensed premises in the Council's area which hold such licences, however many premises licensed under the Licensing Act 2003 also hold permits under the Act for gaming machines.

3.2 The Act requires Councils to have a Statement and to review and publish it at least every three years. The Statement has been reviewed and a revised version is enclosed as **Appendix 1** to this report. The changes made reflect changes in guidance from the Gambling Commission and changes to the Responsible Authorities and Consultees. The amendments made are shown in track changes in the body of the document.

3.3 If the revised Statement is approved by Committee the parties set out in Appendix A of it will be consulted with responses requested on or before 9 December 2015 (a 12 week consultation is required), and the Statement will then be referred to Full Council on 15 December 2015 for approval.

4 RISK ASSESSMENT

4.1 The approval of this report may have the following implications

- Resources – resources would be expended in completing and submitting the survey
- Technical, Environmental and Legal - No implications identified.
- Political - No implications identified.
- Reputation – No implications identified.
- Equality & Diversity – No implications identified.

5 RECOMMENDED THAT COMMITTEE

5.1 Consider the Statement enclosed at Appendix 1; and

5.2 Approve the Statement for consultation as set out in paragraph 3.3 above.

PART A - BACKGROUND

1. The Licensing Objectives

- In exercising most of their functions under the Gambling Act 2005 (**“Act”**), licensing authorities must have regard to the licensing objectives as set out in section 1 of the Act. The licensing objectives are:
 - Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime;
 - Ensuring that gambling is conducted in a fair and open way; and
 - Protecting children and other vulnerable persons from being harmed or exploited by gambling

It should be noted that the Gambling Commission has stated: *“The requirement in relation to children is explicitly to protect them from being harmed or exploited by gambling”*.

Formatted: Font: Italic

This licensing authority is aware that, as per Section 153, in making decisions about premises licences and temporary use notices it should aim to permit the use of premises for gambling in so far as it thinks it:

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority's statement of licensing policy

2. Introduction

Of the 12 district and 2 unitary authorities within the County of Lancashire, Ribble Valley has the largest geographical area but the smallest population. Covering 226 square miles, two thirds of the district is designated as part of the Forest of Bowland Area of Outstanding Natural Beauty. Ribble Valley is also the ‘Centre of the Kingdom’ as the small settlement of Dunsop Bridge lies on the exact centre point of the British Isles.

57,100,992 people live within the Borough. The historic market town of Clitheroe contains just under a quarter of the residents (population c.14,500,000) and is the commercial and administrative centre for the district. The town of Longridge (population c.8,000,7,500) is the industrial and shopping centre for the west of the Borough. Elsewhere there are numerous villages of varying sizes, some accessible along the A59 corridor, others more remote from local services and public transport.

The resident population is relatively old, with a greater than average number of residents over the age of 60 and consequently a lower than average number of young people aged 24 and under. Population projections suggest that this imbalance will increase in the future.

Ribble Valley is a relatively affluent area, and unemployment levels within the Borough are amongst the lowest in the country. Given the rural nature of the area, it is not surprising that agriculture and tourism are important employers.

Amongst the Council's ambitions are:

- To help make people's lives safer and healthier.
- To protect and enhance the existing environmental quality of the area.

Licensing authorities are required by the Gambling Act 2005 to publish a statement of the principles which they propose to apply when exercising their functions. This statement must be published at least every three years. The statement must also be reviewed from "time to time" and any amended parts re-consulted upon. The statement must be then re-published.

Ribblesdale Borough Council consulted widely before finalising and publishing its Statement of Principles. A list of those persons consulted is provided below.

The Gambling Act requires that the following parties are consulted by Licensing Authorities:

- The Chief Officer of Police;
- One or more persons who appear to the authority to represent the

interests of persons carrying on gambling businesses in the authority's area;

- ~~☐~~ One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Gambling Act 2005.

Please note it should be noted that this policy statement will not override the right of any person to make an application, make representations about an application, or apply for a review of a licence, as each will be considered on its own merits and according to the statutory requirements of the Gambling Act 2005.

3. Declaration

In producing the final Statement of Principles, this licensing authority declares that it has had regard to the licensing objectives of the Gambling Act 2005, the guidance issued by the Gambling Commission, and any responses from those consulted on the Statement of Principles.

4. Responsible Authorities

The licensing authority is required by regulations to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the authority about the protection of children from harm. The principles are:

- the need for the body to be responsible for an area covering the whole of the licensing authority's area;
- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group.

In accordance with the suggestion in the Gambling Commission's Guidance for local authorities, this authority designates the Local Safeguarding Children Board for this purpose.

The contact details of all the Responsible Authorities under the Gambling Act 2005 are available via the Council's website at: www.ribblevalley.gov.uk and at Appendix A.

5. Interested parties

Interested parties can make representations about licence applications, or apply for a review of an existing licence. These parties are defined in the ~~Gambling Act 2005~~ as follows:

~~"..... For the purposes of this Part a person is an interested party in relation to an application for or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the applications is made, the person—~~

- ~~lives sufficiently close to the premises to be likely to be affected by the authorised activities,~~
- ~~has business interests that might be affected by the authorised activities, or~~
- ~~represents persons who satisfy paragraph (a) or (b)"~~

The licensing authority is required by regulations to state the principles it will apply in exercising its powers under the ~~Gambling Act 2005~~ to determine whether a person is an interested party. The principles are:

Each case will be decided upon its merits. This authority will not apply a rigid rule to its decision-making. It will consider the examples of considerations provided in the Gambling Commission's Guidance for local authorities at 8.14 and 8.15. It will also consider the Gambling Commission's Guidance that "has business interests" should be given the widest possible interpretation and include partnerships, charities, faith groups and medical practices, if in the particular circumstances of the application the licensing authority departs from the guidance it will explain its reasons for doing so.

The Gambling Commission has recommended that the licensing authority states that interested parties include trade associations and trade unions, and residents' and tenants' associations (Gambling Commission Guidance for local authorities 8.17). This authority will not however generally view these bodies as interested parties unless they have a member who can be classed as an interested person under the terms of the Gambling Act 2005 i.e. lives sufficiently close to the premises to be likely to be affected by the activities being applied for.

Interested parties can be persons who are democratically elected such as councillors and MP's. No specific evidence of being asked to represent an interested person will be required as long as the councillor / MP ~~represents~~ represent the ward likely to be affected. Likewise, parish councils likely to be ~~affected,~~ affected will be considered to be interested parties. Other than these however, this authority will generally require written evidence that a person/body (e.g. an advocate / relative) 'represents' someone who either lives sufficiently close to the premises to be likely to be affected by the authorised activities and/or has business interests that might be affected by the authorised activities. A letter from one of these persons, requesting the representation is sufficient.

If individuals wish to approach councillors to ask them to represent their views then care should be taken that the councillors are not part of the Licensing Committee dealing with the licence application. If there are any doubts then please contact the licensing department using the contact details set out above ~~Catherine Moore~~

6. Exchange of Information

Licensing authorities are required to include in their statements the principles to be applied by the authority in exercising the functions under sections 29 and 30 of the Act with respect to the exchange of information between it and the Gambling Commission, and the functions under section 350 of the Act with the respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.

The principle that this licensing authority applies is that it will act in accordance with the provisions of the Gambling Act 2005 in its exchange of information which includes the provision that the Data Protection Act 1998 will not be contravened. The licensing authority will also have regard to any Guidance issued by the Gambling Commission to local authorities on this matter when it is published, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.

Should any protocols be established as regards information exchange with other bodies then they will be made available.

7. Enforcement

Licensing authorities are required by regulation under the ~~Gambling Act 2005~~ to state the principles to be applied by the authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.

This licensing authority's principles are that:

It will be guided by the Gambling Commission's Guidance for local authorities and will endeavour to be:

- **Proportionate:** regulators should only intervene when necessary; remedies should be appropriate to the risk posed, and costs identified and minimised;
- **Accountable:** regulators must be able to justify decisions, and be subject to public scrutiny;
- **Consistent:** rules and standards must be joined up and implemented fairly;
- **Transparent:** regulators should be open, and keep regulations simple and user friendly; and
- **Targeted:** regulation should be focused on the problem, and minimise side effects.

As per the Gambling Commission's Guidance for local authorities this licensing authority will endeavour to avoid duplication with other regulatory regimes so far as possible.

This licensing authority will also, as recommended by the Gambling Commission's Guidance for local authorities, adopt a risk-based inspection programme. This will include targeting high-risk premises which require greater attention, whilst operating a lighter touch in respect of low-risk premises.

The main enforcement and compliance role for this licensing authority in terms of the Gambling Act 2005 will be to ensure compliance with the premises licences and other permissions which it authorises. The Gambling Commission will be the enforcement body for the operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines will not be dealt with by the licensing authority but will be notified to the Gambling Commission.

This licensing authority will also keep itself informed of developments as regards the work of the Better Regulation Executive in its consideration of the regulatory functions of local authorities. In particular, with regard to the Regulators Code (April 2014) which provides a regulatory framework that supports compliance and growth while enabling resources to be focused where they are most needed.

~~Bearing in mind the principle of transparency, this licensing authority's enforcement/compliance protocols/written agreements will be available upon request to the licensing department Catherine Moore catherine.moore@ribblevalley.gov.uk~~
Our risk methodology will also be available upon request.

8. Licensing Authority functions

Licensing Authorities are required under the Act to:

- Be responsible for the licensing of premises where gambling activities are to take place by issuing Premises Licences

Formatted: Bulleted + Level: 1 +
Aligned at: 0.63 cm + Indent at: 1.27 cm

- Issue *Provisional Statements*
- Regulate members' clubs and miners' welfare institutes who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
- Issue Club Machine Permits to Commercial Clubs
- Grant permits for the use of certain lower stake gaming machines at unlicensed Family Entertainment Centres
- Receive notifications from alcohol licensed premises (under the Licensing Act 2003) for the use of two or fewer gaming machines
- Issue Licensed Premises Gaming Machine Permits for premises licensed to sell/supply alcohol for consumption on the licensed premises, under the Licensing Act 2003, where there are more than two machines
- Register small society lotteries below prescribed thresholds
- Issue Prize Gaming Permits
- Receive and Endorse *Temporary Use Notices*
- Receive Occasional Use Notices
- Provide information to the Gambling Commission regarding details of licences issued (see section above on 'information exchange')
- Maintain registers of the permits and licences that are issued under these functions

Formatted: Font: Italic

It should be noted that local licensing authorities will not be involved in licensing remote gambling at all. This will fall to the Gambling Commission via operating licences.

~~The Gambling Commission has recommended that licensing authorities include a list of licensable activities in their policy statements.?~~

In exercising these functions the Licensing Authority will operate in accordance with the scheme of delegation set out at Appendix B.

PART B **PREMISES LICENCES**

1. General Principles

Premises licences will be subject to the requirements set out in the ~~Gambling Act 2005~~ and regulations, as well as specific mandatory and default conditions which will be detailed in regulations issued by the Secretary of State. Licensing authorities are able to exclude default conditions and also attach others, where it is believed to be appropriate.

Decision making

Formatted: Font: Bold

This licensing authority is aware that in making decisions about premises licences it should aim to permit the use of premises for gambling in so far as it thinks it is:

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission ;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority's statement of licensing policy.

Formatted: Bulleted + Level: 1 +
Aligned at: 0.63 cm + Indent at: 1.27 cm

It is appreciated that as per the Gambling Commission's Guidance for local authorities "moral objections to gambling are not a valid reason to reject applications for premises licences" (except as regards any 'no casino resolution' - see section on Casinos below – page 10) and also that unmet demand is not a criterion for a licensing authority.

Definition of "premises"

Premises is defined in the Act as "any place". Section 152 therefore prevents more than one premises licence applying to any place. Different premises licences cannot apply in respect of a single premises at different times. However, it is possible for a single building to be subject to more than one premises licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being different premises. Whether different parts of a building can properly be regarded as being separate premises will always be a question of fact in the circumstances. However, the Gambling Commission does not consider that areas of a building that are artificially or temporarily separate can be properly regarded as different premises.

This licensing authority takes particular note of the Gambling Commission's Guidance for local authorities which states that:

- licensing authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular they should be aware that entrances and exits from parts of a building covered by one or more licences should be separate and identifiable so that the separation of different premises is not compromised and that people do not 'drift' into a gambling area.
- licensing authorities should pay particular attention to applications where access to the licensed premises is through other premises (which themselves may be licensed or unlicensed). Clearly, there will be specific issues that authorities should consider

before granting such applications, for example, whether children can gain access; compatibility of the two establishments; and ability to comply with the requirements of the Act. But, in addition an overriding consideration should be whether, taken as a whole, the co-location of the licensed premises with other facilities has the effect of creating an arrangement that otherwise would, or should, be prohibited under the Act.

It should also be noted that an applicant cannot obtain a full premises licence until the premises in which it is proposed to offer the gambling are constructed. The Gambling Commission has advised that ~~reference to "the premises"~~ are references to "the premises" are to the premises in which gambling may now take place. Thus a licence to use premises for gambling will only be issued in relation to premises that are ready to be used for gambling. This authority agrees with the Gambling Commission that it is a question of fact and degree whether premises are finished to a degree that they can be considered for a premises licence. The Gambling Commission emphasises that requiring the building to be complete ensure that the authority can, if necessary, inspect it fully, as can other responsible authorities with inspection rights.

Location - This licensing authority is aware that demand issues cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives can. As per the Gambling Commission's Guidance for local authorities, this authority will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder. Should any specific policy be decided upon as regards areas where gambling premises should not be located, this statement will be updated. It should be noted that any such policy does not preclude any application being made and each application will be decided on its merits, with the onus upon the applicant showing how potential concerns can be overcome.

Duplication with other regulatory regimes - This licensing authority will seek to avoid any duplication with other statutory/regulatory systems where possible, including planning. This authority will not consider whether a licence application is likely to be awarded planning permission or building regulations approval, in its consideration of it. It will though, listen to, and consider carefully, any concerns about conditions which are not able to be met by licensees due to planning restrictions, should such a situation arise.

Licensing objectives - Premises licences granted must be reasonably consistent with the licensing objectives. With regard to these objectives, this licensing authority has considered the Gambling Commission's Guidance to local authorities and some comments are made below.

Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime - This licensing authority is aware that the Gambling Commission will be taking a leading role in preventing gambling from being a source of crime. The Gambling Commission's Guidance does however envisage that licensing authorities should pay attention to the proposed location of gambling premises in terms of this licensing objective. Thus, where an area has known high levels of organised crime this authority will consider carefully whether gambling premises are suitable to be located there and whether conditions may be suitable such as the provision of door supervisors. This licensing authority is aware of the distinction

Formatted: Highlight

between disorder and nuisance and will consider factors such as whether police assistance was required and how threatening the behaviour was to those who could see it, so as to make that distinction. Issues of nuisance cannot be addressed via the Gambling Act provisions.

Ensuring that gambling is conducted in a fair and open way - This licensing authority has noted that the Gambling Commission has stated that it would generally not expect licensing authorities to become concerned with ensuring that gambling is conducted in a fair and open way as this will be addressed via operating and personal licences. There is however, more of a role with regard to tracks which is explained in more detail in the 'tracks' section below – page 11).

Protecting children and other vulnerable persons from being harmed or exploited by gambling - This licensing authority has noted the Gambling Commission's Guidance for local authorities states that this objective means preventing children from taking part in gambling (as well as restrictions on advertising so that gambling products are not aimed at or are particularly attractive to children). The licensing authority will therefore consider, as suggested in the Gambling Commission's Guidance, whether specific measures are required at particular premises, with regard to this licensing objective. Appropriate measures may include supervision of entrances / machines, segregation of areas etc.

This licensing authority will also make itself aware of the Codes of Practice which the Gambling Commission issues as regards this licensing objective, in relation to specific premises such as casinos.

As regards the term "vulnerable persons" it is noted that the Gambling Commission is not seeking to offer a definition but states that "it will for regulatory purposes assume that this group includes people who gamble more than they want to; people who gambling beyond their means; and people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs." This licensing authority will consider this licensing objective on a case by case basis. Should a practical definition prove possible in future then this policy statement will be updated with it, by way of a revision.

Conditions - Any conditions attached to licences will be proportionate and will be:

- relevant to the need to make the proposed building suitable as a gambling facility;
- directly related to the premises and the type of licence applied for;
- fairly and reasonably related to the scale and type of premises; and
- reasonable in all other respects.

Decisions upon individual conditions will be made on a case by case basis, although there will be a number of measures this licensing authority will consider utilising should there be a perceived need, such as the use of supervisors, appropriate signage for adult only areas etc. There are specific comments made in this regard under some of the licence types below. This licensing authority will also expect the licence applicant to offer his/her own suggestions as to way in which the licensing objectives can be met effectively.

This licensing authority will also consider specific measures which may be required for buildings which are subject to multiple premises licences. Such measures may include the supervision of entrances; segregation of gambling from non-gambling areas frequented by children; and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives. These matters are in accordance with the Gambling Commission's Guidance.

This authority will also ensure that where category C or above machines are on offer in premises to which children are admitted:

- all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- only adults are admitted to the area where these machines are located;
- access to the area where the machines are located is supervised;
- the area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
- at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

These considerations will apply to premises including buildings where multiple premises licences are applicable.

This licensing authority is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's Guidance, this licensing authority will consider the impact upon the third licensing objective and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

It is noted that there are conditions which the licensing authority cannot attach to premises licences which are:

- any condition on the premises licence which makes it impossible to comply with an operating licence condition;
- conditions relating to gaming machine categories, numbers, or method of operation;
- conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated; and
- conditions in relation to stakes, fees, winning or prizes.

Door Supervisors - The Gambling Commission advises in its Guidance for local authorities that licensing authorities may consider whether there is a need for door supervisors in terms of the licensing objectives of protection of children and vulnerable persons from being harmed or exploited by gambling, and also in terms of preventing premises becoming a source of crime. It is noted though that the door supervisors at casinos or bingo premises cannot be licensed by the Security Industry Authority (SIA). This licensing authority will therefore establish requirements for door supervisors working at casinos or bingo premises. This is in recognition of the nature of the work in terms of

searching individuals, dealing with potentially aggressive persons, etc.

For premises other than casinos and bingo premises, operators and licensing authorities may decide that supervision of entrances / machines is appropriate for particular cases but it will need to be decided whether these need to be SIA licensed or not. It will not be automatically assumed that they need to be.

2. Adult Gaming Centres

This licensing authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to, for example, ensure that under 18 year olds do not have access to the premises.

This licensing authority may consider measures to meet the licensing objective such as will expect applicants to offer their own measures to meet the licensing objectives however appropriate measures / licence conditions may cover issues such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-barring schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

3. (Licensed) Family Entertainment Centres

This licensing authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority, for example, that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machine areas.

This licensing authority may consider measures to meet the licensing objectives such as will expect applicants to offer their own measures to meet the licensing objectives however appropriate measures / licence conditions may cover issues such as:

- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-barring schemes
- Provision of information leaflets / helpline numbers for organisations such as

GamCare.

- Measures / training for staff on how to deal with suspected truant school children on the premises

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

This licensing authority will, as per the Gambling Commission's guidance, refer to the Commission's website to see any conditions that apply to operating licences covering the way in which the area containing the category C machines should be delineated. This licensing authority will also make itself aware of any mandatory or default conditions on these premises licences, when they have been published.

4. Casinos

No Casinos resolution - This licensing authority has not passed a 'no casino' resolution under Section 166 of the Gambling Act 2005, but is aware that it has the power to do so. Should this licensing authority decide in the future to pass such a resolution, it will update this policy statement with details of that resolution. Any such decision will be made by the Full Council.

Formatted: Font: Not Bold, Italic

Casinos and competitive bidding - This licensing authority is aware that where a licensing authority area is enabled to grant a premises licence for a new style casino (i.e. the Secretary of State has made such regulations under Section 175 of the Gambling Act 2005) there are likely to be a number of operators which will want to run the casino. In such situations the local authority will run a 'competition' under Schedule 9 of the Gambling Act 2005. This licensing authority will run such a competition in line with any regulations / codes of practice issued under the Gambling Act 2005.

Licence considerations/conditions - This licensing authority will, as per the Gambling Commission's Guidance, 'have regard to the conditions relating specifically to casino premises, i.e. both mandatory conditions – those that must be attached to casino premises; and default conditions – those that will apply unless the licensing authority chooses to exclude them using its powers under section 169'. It will also adhere to the Commission's 'Licence Conditions and Code of Practice'.

Betting machines - This licensing authority will, as per the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

5. Bingo premises

This licensing authority notes that the Gambling Commission's Guidance states:

18.6 - It is important that if children are allowed to enter premises licensed for bingo that they do not participate in gambling, other than on category D machines. Where category C or above machines are available in premises to which children are admitted licensing authorities should ensure that:

- all such machines are located in an area of the premises separate from the remainder of the premises by a physical barrier which is effective to prevent access

other than through a designated entrance;

- only adults are admitted to the area where the machines are located;
- access to the area where the machines are located is supervised;
- the area where the machines are located is arranged so that it can be observed by staff of the operator or the licence holder; and
- at the entrance to, and inside any such area there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

6. Betting premises

Betting machines - This licensing authority will, as per the Gambling Commission's Guidance (paragraph 19.8), take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

7. Tracks

This licensing authority is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's Guidance, this licensing authority will especially consider the impact upon the third licensing objective (i.e. the protection of children and vulnerable persons from being harmed or exploited by gambling) and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

This authority will therefore expect the premises licence applicant to demonstrate suitable measures to ensure that children do not have access to adult only gaming facilities. It is noted that children and young persons will be permitted to enter track areas where facilities for betting are provided on days when dog-racing and/or horse racing takes place, but that they are still prevented from entering areas where gaming machines (other than category D machines) are provided.

To meeting the licensing objectives this licensing authority may consider measures will expect applicants to offer their own measures to meet the licensing objectives however appropriate measures / licence conditions may cover issues such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-baring schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

Gaming machines - Track owners holding both a track premises licence and a pool betting operating licence issued by the Commission (in effect, greyhound tracks only), may site up to four gaming machines within categories B2 to D on the track. Some tracks will also qualify for an alcohol licence and as such they will be automatically entitled under section 282 of the Act to two gaming machines of category C or D. If a track premises licence holder has both an alcohol licence and a pool betting operating licence, then they will be entitled to a total of six gaming machines (two via the alcohol licence and four via the operating licence). This licensing authority notes the Commission's Guidance that licensing authorities therefore need to consider the location of gaming machines at tracks, and applications for track premises licences will need to demonstrate that, where the applicant holds a pool betting operating licence and is going to use his entitlement to four gaming machines, these machines are located in areas from which children are excluded. Children and young persons are not prohibited from playing category D gaming machines on a track.

Betting machines - This licensing authority will, as per the Gambling Commission's Guidance, take into account the size of the premises and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer. It will also take note of the Gambling Commission's suggestion that licensing authorities will want to consider restricting the number and location of such machines in respect of applications for track betting premises licences.

Condition on rules being displayed - The Gambling Commission has advised in its Guidance for local authorities that "...licensing authorities should attach a condition to track premises licences requiring the track operator to ensure that the rules are prominently displayed in or near the betting areas, or that other measures are taken to ensure that they are made available to the public. For example, the rules could be printed in the race-card or made available in leaflet form from the track office."

Applications and plans - The Gambling Commission suggests "To ensure that licensing authorities gain a proper understanding of what they are being asked to license they should, in their licensing policies, set out the information that they will require, which should include detailed plans for the racetrack itself and the area that will be used for temporary "on-course" betting facilities (often known as the "betting ring") and in the case of dog tracks and horse racecourses fixed and mobile pool betting facilities operated by the Tote or track operator, as well as any other proposed gambling facilities." and that "Plans should make clear what is being sought for authorisation under the track betting premises licence and what, if any, other areas are to be subject to a separate application for a different type of premises licence."

This licensing authority also notes that in the Commission's view, it would be preferable for all self-contained premises operated by off-course betting operators on track to be the subject of separate premises licences, to ensure that there is clarity between the respective responsibilities of the track operator and the off-course betting operator running a self-contained unit on the premises.

8. Travelling Fairs

~~The It will fall to this~~ licensing authority is responsible for deciding whether, where category D machines and / or equal chance prize gaming without a permit is to be made available for use at travelling fairs, the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair is met.

The licensing authority will also consider whether the applicant falls within the statutory definition of a travelling fair.

It has been noted that the 27-day statutory maximum for the land being used as a fair, is per calendar year, and that it applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. This licensing authority will work with its neighbouring authorities to ensure that land which crosses our boundaries is monitored so that the statutory limits are not exceeded.

9. Provisional Statements

This licensing authority notes the Guidance for the Gambling Commission which states that "It is a question of fact and degree whether premises are finished to a degree that they can be considered for a premises licence" and that "Requiring the building to be complete ensures that the authority could, if necessary, inspect it fully".

In terms of representations about premises licence applications, following the grant of a provisional statement, no further representations from relevant authorities or interested parties can be taken into account unless they concern matters which could not have been addressed at the provisional statement stage, or they reflect a change in the applicant's circumstances. In addition, the authority may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

- (a) which could not have been raised by way of representations at the provisional licence stage ;
- (b) which is in the authority's opinion reflect a change in the operator's circumstances; or
- (c) where the premises has not been constructed in accordance with the plan and information submitted with the provisional statement application. This must be a substantial change to the plan and licensing authorities should discuss any concerns they have with the applicant before making a decision

This authority has noted the Gambling Commission's Guidance that "A licensing authority should not take into account irrelevant matters.... One example of an irrelevant matter would be the likelihood of the applicant obtaining planning permission or building regulations approval for the proposal."

10. Reviews:

Requests for a review of a premises licence can be made by interested parties or responsible ~~authorities, authorities~~; however, it is for the licensing authority to decide whether the review is to be carried-out. This will be on the basis of whether the request for the review is relevant to the matters listed below, as well as consideration as to whether the request is frivolous, vexatious, will certainly not cause this authority to wish alter/ revoke/ suspend the licence, or whether it is substantially the same as previous representations or requests for review.

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority's statement of licensing policy.

The licensing authority can also initiate a review of a licence on the basis of any reason which it thinks is appropriate.

PART C

PERMITS/TEMPORARY & OCCASIONAL USE NOTICE

1. Unlicensed Family Entertainment Centre gaming machine permits (Statement of Principles on Permits - Schedule 10 paragraph 7)

Where a premises does not hold a premises licence but wishes to provide gaming machines, it may apply to the licensing authority for this permit. It should be noted that the applicant must show that the premises will be wholly or mainly used for making gaming machines available for use (Section 238).

The Act states that a licensing authority may prepare a statement of principles that they propose to consider in determining the suitability of an applicant for a permit and in preparing this statement, and/or considering applications, it need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Commission under section 25. The Gambling Commission's Guidance for local authorities also states: "In their three year licensing policy statement, licensing authorities may include a statement of principles that they propose to apply when exercising their functions in considering applications for permits....., licensing authorities will want to give weight to child protection issues." (24.6)

Guidance also states: "...An application for a permit may be granted only if the licensing authority is satisfied that the premises will be used as an unlicensed FEC, and if the chief officer of police has been consulted on the application....Licensing authorities might wish to consider asking applications to demonstrate:

- a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs;
- that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act; and
- that staff are trained to have a full understanding of the maximum stakes and prizes. (24.7)"

It should be noted that a licensing authority cannot attach conditions to this type of permit.

Statement of Principles

This licensing authority will expect the applicant to show that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include appropriate measures / training for staff as regards suspected truant school children on the premises, measures / training covering how staff would deal with unsupervised very young children being on the premises, or children causing perceived problems on / around the premises. This licensing authority will also expect, as per Gambling Commission Guidance, that applicants demonstrate a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs; that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act); and that staff are trained to have a full understanding of the maximum stakes and prizes.

2. (Alcohol) Licensed premises gaming machine permits - (Schedule 13 paragraph 4(1))

Automatic entitlement: 2 machines

Formatted: Font: Bold

There is provision in the Act for premises licensed to sell alcohol for consumption on the premises, to automatically have 2 gaming machines, of categories C and/or D. The premises merely need to notify the licensing authority. The licensing authority can remove the automatic authorisation in respect of any particular premises if:

- provision of the machines is not reasonably consistent with the pursuit of the licensing objectives;
- gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act (i.e. that written notice has been provided to the licensing authority, that a fee has been provided and that any relevant code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with);
- the premises are mainly used for gaming; or
- an offence under the Gambling Act has been committed on the premises.

Permit: 3 or more machines

Formatted: Font: Bold

If a premises wishes to have more than 2 machines, then it needs to apply for a permit and the licensing authority must consider that application based upon the licensing objectives, any guidance issued by the Gambling Commission issued under Section 25 of the Gambling Act 2005, and "such matters as they think relevant." This licensing authority considers that "such matters" will be decided on a case by case basis but generally there will be regard to the need to protect children and vulnerable persons from harmed or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machines. Measures which will satisfy the authority that there will be no access may include the adult machines being in sight of the bar, or in the sight of staff who will monitor that the machines are not being used by those under 18. Notices and signage may also be help. As regards the protection of vulnerable persons ~~persons~~ ~~applicants~~ persons applicants may wish to consider the provision of information leaflets / helpline numbers for organisations such as GamCare.

It is recognised that some alcohol licensed premises may apply for a premises licence for their non-alcohol licensed areas. Any such application would most likely need to be applied for, and dealt with as an Adult Gaming Centre premises licence.

It should be noted that the licensing authority can decide to grant the application with a smaller number of machines and/or a different category of machines than that applied for. Conditions (other than these) cannot be attached.

It should also be noted that the holder of a permit must comply with any Code of Practice issued by the Gambling Commission about the location and operation of the machine.

3. Prize Gaming Permits - (Statement of Principles on Permits - Schedule 14 paragraph 8 (3))

The Gambling Act 2005 states that a licensing authority may "prepare a statement of

principles that they propose to apply in exercising their functions under this Schedule" which "may, in particular, specify matters that the licensing authority proposes to consider in determining the suitability of the applicant for a permit".

This licensing authority has prepared a **Statement of Principles** which is that the applicant should set out the types of gaming that he or she is intending to offer and that the applicant should be able to demonstrate:

- that they understand the limits to stakes and prizes that are set out in Regulations;
- and that the gaming offered is within the law; and,
- They have clear policies that outline the steps to be taken to protect children from harm.

Formatted: Font: Italic

In making its decision on an application for this permit the licensing authority does not need to have regard to the licensing objectives but must have regard to any Gambling Commission guidance.

It should be noted that there are conditions in the Gambling Act 2005 by which the permit holder must comply, but that the licensing authority cannot attach conditions. The conditions in the Act are:

- the limits on participation fees, as set out in regulations, must be complied with;
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
- the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
- participation in the gaming must not entitle the player to take part in any other gambling.

4. Club Gaming and Club Machines Permits

Members Clubs and Miners' welfare institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Clubs Gaming machines permit. The Club Gaming Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D), equal chance gaming and games of chance as set-out in forthcoming regulations. A Club Gaming machine permit will enable the premises to provide gaming machines (3 machines of categories B, C or D).

Gambling Commission Guidance states: "Members clubs must have at least 25 members and be established and conducted "wholly or mainly" for purposes other than gaming, unless the gaming is permitted by separate regulations. It is anticipated that this will cover bridge and whist clubs, which will replicate the position under the Gaming Act 1968. A members' club must be permanent in nature, not established to make commercial profit, and controlled by its members equally. Examples include working men's clubs, branches of Royal British Legion and clubs with political affiliations."

The Commission Guidance also notes that "licensing authorities may only refuse an

application on the grounds that:

- (a) the applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- (b) the applicant's premises are used wholly or mainly by children and/or young persons;
- (c) an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- (d) a permit held by the applicant has been cancelled in the previous ten years; or
- (e) an objection has been lodged by the Commission or the police."

There is also a 'fast-track' procedure available under the Act for premises which hold a Club Premises Certificate under the Licensing Act 2003 (Schedule 12 paragraph 10). As the Gambling Commission's Guidance for local authorities states: "Under the fast-track procedure there is no opportunity for objections to be made by the Commission or the police, and the ground upon which an authority can refuse a permit are reduced." and "The grounds on which an application under the process may be refused are:

- (a) that the club is established primarily for gaming, other than gaming prescribed under schedule 12;
- (b) -that in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
- (c) that a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled."

Formatted: Indent: Left: 0 cm,
Hanging: 0.63 cm

There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines.

5. Temporary Use Notices

There are a number of statutory limits as regards temporary use notices. Gambling Commission Guidance is noted that "The meaning of "premises" in part 8 of the Act is discussed in Part 7 of this guidance. As with "premises", the definition of "a set of premises" will be a question of fact in the particular circumstances of each notice that is given. In the Act "premises" is defined as including "any place". In considering whether a place falls within the definition of "a set of premises", licensing authorities will need to look at, amongst other things, the ownership/occupation and control of the premises...This is a new permission and licensing authorities should be ready to object to notices where it appears that their effect would be to permit regular gambling in a place that could be described as one set of premises."

6. Occasional Use Notices:

The licensing authority has very little discretion as regards these notices aside from ensuring that the statutory limit of 8 days in a calendar year is not exceeded. This licensing authority will though consider the definition of a 'track' and whether the applicant is permitted to avail him/herself of the notice.
