

Ribble Valley Borough Council

DESIGN AND ACCESS STATEMENT PRO-FORMA

From the 10 August 2006, planning applications relating to certain types of developments are required to be submitted with a design and access statement. When submitting an application, failure to provide a design and access statement of sufficient standard may result in a delayed registration of the application.

What Applications Need to be Accompanied by a Design and Access Statement?

Most planning applications have to be accompanied by a design and access statement, the exceptions being:

- material change in the use of land or buildings, unless it also involves operational development;
- engineering or mining operations;
- development of an existing dwellinghouse, or development within the curtilage or a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, where no part of that dwellinghouse or curtilage is within a designated area or is a listed building. 'Designated Areas' include: • Conservation Areas; • Sites of Special Scientific Interest (SSSI); and • Areas of Outstanding Natural Beauty (AONB).

Process

What factors have you considered when deciding upon the use, design, scale, layout and materials used in the proposed development?

.....

.....

.....

.....

.....

Use

What will the extension/development be used for and justify why this is necessary?

.....

.....

.....

.....

.....

Amount

What is the proposed size of the extension/development and why is this necessary and appropriate for the setting of the development?
