1. Introduction

- 1.1 This Publication (Proposed Submission) Consultation Statement describes how Preston City Council has undertaken community participation and stakeholder involvement to produce Preston's Local Plan 2012-2026. It also sets out how previous stages of consultation and engagement have shaped the Local Plan. It is produced to fulfil the requirements set out in the Town and Country Planning (Local Planning) (England) Regulations 2012, which came into force on 6 April 2012, specifically the statement defined in Regulation 17 comprising "a statement setting out:
 - a. which bodies and persons were invited to make representations under regulation 18;
 - b. how those bodies were invited to make representations;
 - c. a summary of the main issues raised by those representations; and
 - d. how those main issues have been addressed in the Local Plan."
- 1.2 This statement will be made available alongside the Publication Preston Local Plan (Site Allocations and Development Management Policies DPD). Consultation has previously been carried out under the "Sites for Preston" banner.
- 1.3 Following Publication an updated statement will be prepared setting out how many representations were received in relation to the Publication Local Plan, and summarising the content of these representations. After the close of the publication period, the Local Plan, together with the consultation statements, copies of all the representations received in relation to the Publication Local Plan, and all other submission documents, will be submitted to the Secretary of State for independent examination.
- 1.4 It should be borne in mind that the purpose of the Local Plan is, chiefly, to implement the development strategy contained in the [Central Lancashire Core Strategy](#), which is the principle Development Plan Document. The site allocations and policies in the Local Plan must adhere to the principles already established in the Core Strategy, which was adopted in 2012. The Core Strategy itself was subject to ongoing community engagement during its preparation.
- 1.5 This Consultation Statement forms one of the "proposed submission documents" referred to in Regulation 19. It also highlights how Preston City Council has met the requirements of its [Statement of Community Involvement](#) (SCI), which was adopted in 2006.
- 1.6 Consultation has been carried out at a number of stages, principally at Issues and Options and Preferred Options stages. The current stage of preparation is highlighted. Consultation at Issues and Options took place in 2010, prior to the current 2012 Regulations coming into effect.

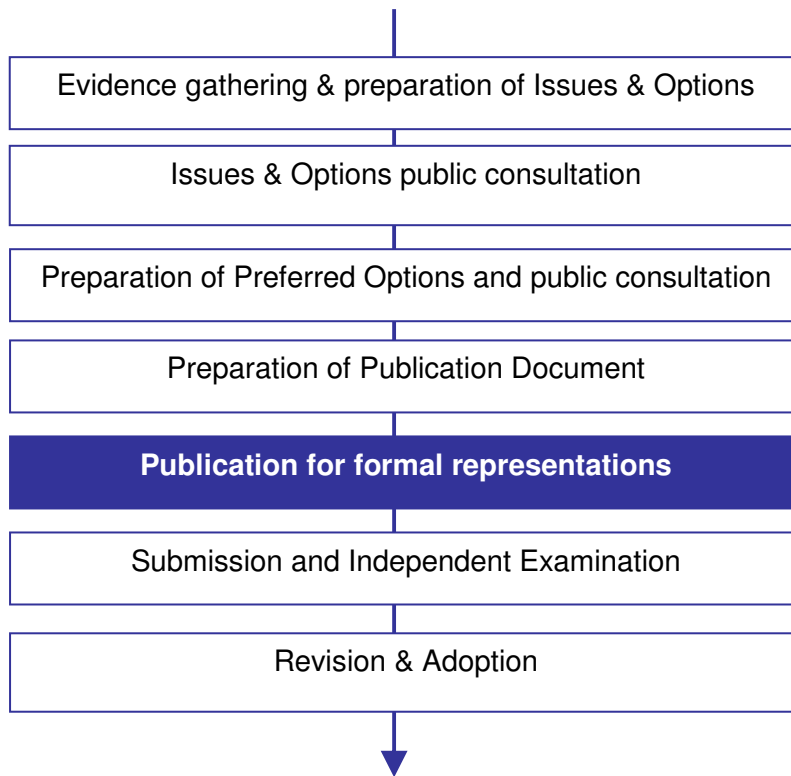

Figure 1: Stages involved in the preparation of a Local Plan

1.7 Elected members of Preston City Council have been actively engaged in the formulation of the Local Plan. The principle forum for doing this has been the Local Development Framework Member Working Group, which meets regularly. It has no formal decision making powers but it enables officers and members to discuss issues candidly and to collectively advise the Cabinet Member with responsibility for planning.

2. Issues and Options Consultation

- 2.1 The process of evidence gathering and identifying potential sites began in 2007, with a 'call for sites' exercise, where we invited people to suggest places which could be used for new housing, employment, retail, community or leisure uses, as well as land that should be protected from development in some way. From these, we received 98 site suggestions for a variety of development types or protection. In addition there were a small number of sites which the Council had previously been made aware of. This made a total of 106 sites to be considered.
- 2.2 Between December 2010 and February 2011 we carried out community engagement on the **Sites for Preston Issues and Options Discussion Paper**. This was the first stage of community engagement. This paper contained all of the sites that had been suggested to the Council, plus a number of other longstanding sites which the Council was already aware of. The paper highlighted local issues, and proposed development management policies. It also contained a number of questions relevant to each chapter. However, some sites were "filtered out" of the consultation because they were:
- Under 0.4 hectares in size (because it was considered that sites of this size did not generally warrant identification in the Local Plan, and could be brought forward just through the planning application process);
 - Already developed; or
 - Suggested for uses that were contrary to policies in the Core Strategy, especially Policy 1 which sets out the priority locations for new development.
- 2.3 The aims of the issues and options stage were to:
- Stimulate early discussion with consultees (residents/businesses/community and interest groups/statutory agencies) as to the contents of the DPD;
 - Gauge opinion on the principle of developing those sites put forward for consideration;
 - Identify other potential development sites identified through various evidence base studies (such as the Employment Land Review);
 - Identify other potential development sites not yet brought to the Council's attention; and
 - Identify local issues which the Local Plan might address, perhaps through appropriate development management policies.
- 2.4 Following on from the principles set out in our [Statement of Community Involvement](#) (adopted April 2006), the consultation was undertaken using various methods set out below:
- The document and all supporting material were made available on the Council's website and comments could be made on-line through the electronic representations form.
 - Information was placed in the Council's community newspaper, "[The Prestonian](#)" which was distributed free to all households in Preston.

- A press release was issued, and an interview was given on Radio Preston.
- Letters were sent to all statutory consultees, agencies, developers, interested parties and members of the public who had requested to be notified.
- Posters were placed in Council offices, libraries and other locations (such as parish notice boards).
- Documents were made available in all libraries, leisure centres and rural post offices in Preston.
- A summary leaflet advertising Area Forum¹ events was distributed to all households
- A number of community engagement events were held utilising programmed Area Forum meetings. These took the form of presentations followed by workshops facilitated by the Council's Community Engagement Team, where peoples' views on key issues were recorded. They were attended by over 400 people. Presentations were given to subsequent Area Forum meetings to provide feedback on the issues raised.
- In addition, drop-in events were arranged in the city centre using the Council's "CitizenZone" vehicle².
- In response to specific requests, and additional workshop was arranged in conjunction with Grimsargh Parish Council and a further "drop-in" event was held in Broughton.
- A training event was held in conjunction with the Preston Community Network and Planning Aid North West.

Date	Event	Location	Time
03 November 2010	Western Area Forum – workshop	Ashton Community Science College	7.00pm
13 January 2011	Western Area Forum - feedback	Tanterton Christian Fellowship	7.00pm
11 November 2010	Northern Area Forum – workshop	St Pius X Preparatory School	7.00pm
20 January 2011	Northern Area Forum – feedback	St Pius X Preparatory School	7.00pm
18 November 2010	Eastern Area Forum – workshop	Farringdon Park Community Centre	7.00pm
27 January 2011	Eastern Area Forum – feedback	Greenlands Primary School	7.00pm
25 November 2010	Rural Area Forum - workshop	Broughton Business and Enterprise College	7.00pm
10 February	Rural Area Forum -	Barton Village Hall	7.00pm

¹ Area Forums provided an open forum for residents to discuss local concerns and issues, and provided an opportunity to consult and receive feedback on the Council's policies.

² The CitizenZone vehicle is a mobile community engagement resource operated by the Council

2011	feedback		
02 December 2010	Central Area Forum – workshop	Town Hall	7.00pm
03 February 2011	Central Area Forum - feedback	Gujarat Hindu Society Centre, South Meadow Lane	7.00pm
12 January 2011	Grimsargh Workshop (held in conjunction with Grimsargh PC)	Grimsargh Village Hall	7.00pm
25 January 2011	Broughton “drop-in” event	Broughton Police Station	3.30 – 8.00pm
11 December 2010 & 15 January 2011	CitizenZone	Market Square, City Centre	9.30am – 1.30pm
02 February 2011	Planning Aid – training event.	Preston CVS, city centre.	10.00am – 2.00pm

Table 1: Issues and Options Consultation Events

2.5 Presentations were also given to a wide range of stakeholders via the Preston Strategic Partnership “thematic working groups”, during November and December 2010. This includes:

- Health and Wellbeing
- People and Communities
- Older Persons
- Prosperous Preston
- Environment
- Cultural Forum

2.6 Presentations were also given to the Parish Council consultative forum and five individual parish council meetings.

Level of Response

2.7 A total of **1266** respondents formally submitted approximately **1850** written representations during the consultation period. Responses generally focussed on the issue of potential new housing sites. A summary of the issues raised in relation to each site was prepared and published on our website. This is attached at appendix 1.

Summary of the Main Issues Raised

- 2.8 **Broughton Business Park (Land at Eastway)(P003):** This attracted 25 responses mostly opposed to the development of this site for a mix of housing and employment uses, together with a park and ride site.
- 2.9 **Preston East (P004):** This prompted 27 responses which were overwhelmingly opposed to the allocation of this land as an extension to the existing employment area.
- 2.10 **Land off Preston Road, Grimsargh (P020):** One site suggestion (P020) at Preston Road (to the west of the village) is proposed for a mix of housing and health facilities. A significant number of comments in support of the development of health facilities were submitted (98), although relatively few of them came from Grimsargh residents.
- 2.11 **Land at Church House Farm, Preston Road (P041):** The majority of respondents (35 out of 49) were opposed to this site suggestion for residential development in the gap between Preston and Grimsargh.
- 2.12 **Land off Whittingham Lane, Whittingham (adj. Longridge) (P047):** The overwhelming majority of respondents (58 out of 60) were opposed to this site being allocated for housing due to infrastructure constraints and also its effect on the character of the area.
- 2.13 **Ingol Golf Course (P071):** This site suggestion was primarily for residential development (although an alternative site suggestion for retaining the open space was also submitted). 130 representations were received from local residents objecting to the suggestion of developing the site.
- 2.14 **Harris Park (P084):** At the Northern Area Forum, there were objections raised to the site suggestion for residential development on the former cricket pitch within the Harris Park complex. Subsequently, a number of comments and petitions were submitted in support of the site suggestion (prompted by the site owner). In total, 49 representations were submitted with the majority in support of the site suggestion. However, some of these were not from local residents.
- 2.15 **Rural Exception Affordable Housing Sites:** Seven of these were put forward – two in Barton (P094 & P095), two in Broughton (P093 and P096), two in Grimsargh (P091 and P092) and one in Woodplumpton. Overall, 593 (or 32% of the total number of responses) concerned these sites. These were on the edge of the settlements in locations where market housing would not normally be encouraged, but were “exceptions” because they would be developed specifically to meet any local affordable housing needs. They featured at the Rural Area Forum. A large number of “petition” style letters and individual responses were been submitted by Barton residents in particular objecting to the two site suggestions. There was also a petition objecting to the two site suggestions in Broughton. There were objections to the Woodplumpton site, although there was also some support for the idea of affordable housing in the village. There were objections to the Fell View site in Grimsargh (P092), but some support for the Vicarage site (P091) provided it met the needs of older people.
- 2.16 **North West Preston:** At the Issues and Options stage, various sites adjoining the north and west of the Preston urban area (the Higher Bartle area, to the north of Hoyles Lane and Lightfoot Lane, south of the M55) were suggested for

residential development but were “filtered out” as being – at that time – contrary to the emerging Core Strategy. Although comments were encouraged during the consultation, very few were submitted.

- 2.17 Subsequently, Core Strategy Policy 1 was amended following its public examination to include the identification of the North West Preston Strategic Location, within which these sites fall. This led to the allocation of sites in this area at the subsequent Preferred Options stage of the Local Plan.
- 2.18 **Cottam Hall (P001):** This site represents a major development of over 1000 new dwellings. However, it only attracted a single response. This is probably because it represents a long-standing commitment so there is a general expectation that the development will take place.
- 2.18 **General issues:** At the Area Forums there was much concern expressed about traffic and congestion generally and how new development would add to the problem. The view was often expressed that brownfield sites should be developed before greenfield sites. There were requests for clarification on the housing requirement that the Council is seeking to plan for. There was discussion at the Central Area Forum about design quality, and what can be done to improve it. There was discussion at the Eastern Area Forum about the need for environmental improvements in Inner East Preston.
- 2.19 **New Site Suggestions:** In response to the Issues and Options consultation, a further 26 “new” sites were put forward as potential allocations for consideration at the “Preferred Options” stage.

3. Preferred Options Consultation

- 3.1 The Preferred Options consultation on the Site Allocations and Development Management Policies DPD ran from 21 May 2012 to 2 July 2012.
- 3.2 In preparing the Preferred Options the list of sites consulted on at the earlier Issues and Options consultation was reviewed and a preferred list of sites was produced. This preferred list took into account the consultation responses received, and the detailed sustainability assessments. It also took into account the main modifications to the Central Lancashire Core Strategy arising from the public examination and the Inspector's recommendations. These centred on increasing the housing requirement figure and identifying North West Preston as a Strategic Location where up to 2,500 new dwellings would be located.
- 3.3 In addition, all existing 2004 Preston Local Plan development management policies were reviewed to see if they were still relevant and consistent with national policy. The aim, in line with the adoption of a positive "development management" approach to dealing with planning applications, was to reduce the number of policies in the plan.
- 3.4 Prior to publishing the Preferred Options paper, a number of drop-in sessions for elected members were held. The views of members have therefore contributed to the formulation of the Preferred Options.
- 3.5 The Preferred Options consultation stage aimed to:
- Maintain dialogue with all consultees as to the content of the Local Plan;
 - Request responses on the Council's preferred sites for development, including their proposed phasing and scale;
 - Request responses on the Council's preferred development management policies; and
 - Identify other potential development sites not identified so far.
- 3.6 Appendix 2 sets out the list of people notified about the Preferred Options stage. This includes statutory bodies, key stakeholders and members of the public. The list has developed through each stage of consultation on both the Core Strategy and the Local Plan.
- 3.7 The consultation followed the principles set out in the [Statement of Community Involvement](#). The methods of consultation employed included:
- Posting the Preferred Options Paper and all associated documents on the Council's web site, including links to on-line representation forms.
 - Using social networking, such as Twitter.
 - Issuing a local press release.
 - Letters or e-mails sent to all those listed at Appendix 2.
 - Documents deposited at libraries, council offices, leisure centres and some post offices.

- Drop-in events were arranged utilising the CitizenZone, as set out at Table 2 below³. These were generally targeted at locations in the City most affected by proposed allocations.

Date	Location
Wednesday 23 May 2012	Lightfoot Lane / Hoyles Lane- car park, Fulwood Free Methodist church.
Tuesday 29 May 2012	D’Urton Lane / Eastway – car park, Phantom Winger pub.
Wednesday 6 June 2012	Broughton village – car park, Gates of Bengal restaurant.
Thursday 7 June 2012	Grimsargh – village hall.*
Tuesday 12 June 2012	Lea – car park of Lea Club.
Wednesday 13 June	Inner East Preston area – car park, Preston North End stadium.
Wednesday 20 June	City Centre - Town Hall Room A*

* CitizenZone not used in these locations

Table 2: Drop-in events at the Preferred Options stage.

Summary of the Main Issues Raised and the Council’s Response

- 3.8 This section concerns the main issues raised in the representations which would be likely to have a bearing on whether the Local Plan is sound. It should be noted that not all representations related to these main issues, and hence this is not an exhaustive description of all the representations made. The representations are reproduced in full on the City Council’s website (<http://www.preston.gov.uk/yourservices/planning/planning-policies/>)
- 3.9 **Delivering Infrastructure (Chapter 3):** The City Council, in conjunction with Lancashire County Council and the Homes and Communities Agency, has commissioned consultants to prepare a master plan to guide the future development of the North West Preston strategic location. A consultation draft is scheduled for September 2013, with the final master plan due to be adopted by the Council in December 2013. The master plan will make recommendations about future phasing of development across the area and, linked to this, the provision of essential infrastructure including roads (including the major schemes included in the County Council’s Central Lancashire Highways and Transport Masterplan (CLHTM)).
- 3.10 There was support for the preparation of the Master Plan, but concern that the existing road network can not cope with any further development. There was support for the inclusion of the Preston Western Distributor Road in the Plan (as proposed in the CLHTM).

³ Please note that from May 2011 the Council ceased to hold regular Area Forum meetings.

- 3.11 Council's Response: The Council is very keen to ensure that development in North West Preston is supported by appropriate infrastructure provision, and this is reflected in Policy MD2 in the Preferred Options Paper. The best way of ensuring this happens is via the master plan.
- 3.12 **North West Preston (Policy MD2, and also Policy HS1 (sites HS1.3, HS1.4, HS1.5 and HS1.6))**: There were many comments (around 1,550) made in relation to the future development of North West Preston.
- 3.13 Some comments concerned “generic” issues about the area generally. These included the need for the release of land, its affect on the area’s character and environment, and the need to re-use empty homes and redevelop brownfield sites as a priority over building new homes on greenfield land.
- 3.14 Council's Response: The principle of developing in this location has been established through the Core Strategy. The re-use of empty homes and development of brownfield sites also forms part of the Strategy, but major greenfield development is also needed. The effect on the area’s character and environment will be mitigated through design principles to be set out in the Master Plan, which will be implemented in detail at the planning application stage.
- 3.15 Other comments pertained to individual allocations with the North West Preston Strategic Location.
- 3.16 **Site HS1.3 – Land at Boyes’s Farm and Eastway**: There were 80 comments made in relation to these sites, to the north and south of D’Urton Lane. There was concern over the proximity of the northern site to the motorway (M55), and issues relating to traffic in the area. Concerns were raised over flood risk and also proximity to a Scheduled Ancient Monument (Cromwell’s Mound).
- 3.17 Council's Response: The majority of these issues will be addressed directly through the North West Preston Masterplan and detailed planning applications. There will need to be a suitable buffer between any new development and the motorway (M55). The boundary of the site has been adjusted to ensure that no part of it is within a flood zone. The impact of any development on the Ancient Monument will be addressed in the Masterplan and as part of any planning application.
- 3.18 **Site HS1.4 – Land bounded by Garstang Road / Eastway / Sandyforth Lane / M55**: There were over 400 comments submitted concerning this site. These concerned the harm that development would cause to the local environment, and the need to retain the area as green infrastructure. There was an objection from Preston Grasshoppers RUFC to the omission of its land from the proposed housing allocation (the club made a site suggestion to this effect).
- 3.19 Council's Response: The majority of these issues will be addressed directly through the North West Preston Masterplan and any detailed planning applications. The Preston Grasshoppers site will be allocated for housing (the decision to omit it from the Preferred Options document was down to a misunderstanding with the club).
- 3.20 **Site HS1.5 – Land bounded by Sandyforth Lane/Lightfoot Lane/Sandy Lane/M55**: There were 552 comments made in relation to this site. These included concerns about the harm that development would cause to the area’s

character and environment; and the constraints to development represented by proximity to the M55, the location of overhead power lines, and the lack of adequate access and infrastructure.

- 3.21 **Council's Response:** The principle of developing in this area has been established through the Core Strategy. The majority of these issues will be addressed directly through the North West Preston Masterplan and detailed planning applications. There will need to be a suitable buffer between any new development and the motorway (M55).
- 3.22 **Site HS1.6 - Land west of Sandy Lane:** There were 468 comments made in respect of this site. As with the other components of the North West Preston Strategic Location, the concerns raised were to do with the impact that development would have on the character of the area, and on the environment. The promoters of the site also said that the Plan had significantly underestimated the capacity of the site. There were also a number of new site suggestions submitted in this area, extending northwards up to Bartle Lane.
- 3.23 **Council's Response:** The majority of these issues will be addressed directly through the North West Preston Masterplan and detailed planning applications. There will need to be a suitable buffer between any new development and the motorway (M55). The dwelling capacity of the site has been revised upwards and the extent of the allocation extended northwards to include new site suggestions. Overall, this increases the capacity from 750 units as stated in the Preferred Options, to approximately 1,850 units.
- 3.24 **Policy MD2 - North West Preston:** This policy concerns all of the above North West Preston Allocations. Its purpose is to ensure the comprehensive development of the area, and in particular, to ensure that provision is made for the additional transport infrastructure required. 46 comments were made in relation to this policy. As with the individual allocations, concerns were raised about the need for the development and its impact on the character of the area. In addition, land owners and developers argued in favour of their sites being released before others, and alternatives to the proposed east – west phasing were put forward. It was argued that the potential capacity of the area should not be limited to 2,500 dwellings.
- 3.25 **Council's Response:** The principle of developing in this area was established in the Core Strategy. The disagreement between developers over how development should be phased points to the need for this to be addressed in the comprehensive master plan. It is acknowledged that the reference to “up to 2,500 dwellings” in the text is no longer appropriate.
- 3.26 **Site HS1.24 – Land off Blackpool Road / Dodney Drive:** This site attracted 299 comments. The issues of concern were the lack of a suitable access to the site (which would have to be via the Dodney Drive estate); harm to the area's ecology; flood risk; overhead power lines; archaeological interest; inadequate local services; loss of agricultural land; and detrimental impact on the Guild Wheel⁴.
- 3.27 **Council's Response:** There was a great deal of concern about this allocation from residents of the Dodney Drive area. The majority of issues raised could be addressed either through a masterplan or at planning application stage. For

⁴ Preston Guild Wheel is a 21 mile greenway that encircles the city's perimeter

example, impacts on the area's ecology or archaeology could be mitigated. However, the main impediment to the site's development is the lack of a satisfactory access and it is difficult to see how this could be overcome. This means that, in the Council's view, the site is not developable. This allocation has not been carried forward into the Publication version of the Local Plan.

- 3.28 **Site HS1.25 – Land South of Stoney Butts / North of Riversway:** 117 comments were made in relation to this site. The issues raised were that the site is within Flood Zone 2; ground conditions are unsuitable (due to the depth of peat; local infrastructure is inadequate; the residential roads leading to the site are narrow and unsuitable (particularly for construction traffic) and on-street parking is prevalent in places; loss of green infrastructure; and effect on wildlife.
- 3.29 **Council's Response:** The majority of issues raised could, potentially, be addressed at the planning application stage, and mitigation measures could be agreed, for example, in relation to wildlife (although the site has no specific designation). However, the very constricted nature of the local road network means that it is difficult to see how a satisfactory access to the site could be achieved (particularly for large construction vehicles). In addition, the ground conditions also call into question the viability of developing the site. For these reasons, the Council has not included the site as an allocation in the Publication version of the Local Plan.
- 3.30 **Site HS1.26 – Land off Whittingham Road, Whittingham (adj. to Longridge):** This allocation attracted 164 comments. The issues raised included the lack of road infrastructure capacity (particularly in relation to the Broughton crossroads); the lack of services and employment in the area; the relationship to Core Strategy Policy 1 and development at Longridge; the effect of development on the character of the area and on the environment; and the lack of demand or need for the proposed new housing. The promoter of the site submitted that its potential capacity is 420 units, significantly greater than the 280 units estimated by the Council.
- 3.31 **Council's Response:** Duplicate planning applications have been submitted for part of the site for up to 200 dwellings and 929 sq m of offices. One application (06/2011/0344) was determined at appeal (August 2012). The Inspector dismissed the appeal on highways grounds citing the "extreme" problems in relation to Broughton cross roads and A6/M55 junction. A second application remains (as of August 2013) to be determined, whilst discussions are ongoing with the highways authority. Progress is being made in relation to relieving congestion along the A6 corridor through proposals contained in the Central Lancashire Highways and Transport Masterplan with improvement works underway at junction 1 of the M55.
- 3.32 Many of the other issues raised about the suitability of the site were considered by the appeal Inspector. He did not consider any of them to be insurmountable and therefore did not include them in his reasons for refusal. Core Strategy Policy 1 acknowledges that Longridge is a Key Service Centre serving part of Preston, and that some development within Preston's administrative area may be required.
- 3.33 Nevertheless, given the strength of local feeling the Council considers that the proposed allocation would have had an unacceptable impact on the character of this part of Whittingham. It has resolved to reduce the proposed housing allocation in the Publication version Local Plan to the area of previously

developed land (a depot) which is 3.31 has in size with an estimated capacity of 90 units.

- 3.34 **Site EP1.10 – Preston East Junction 31A, M6:** This allocation for employment uses attracted 121 comments. These included; the affect that development would have on the existing tenants and their farming/livery business; possible alternative sites to allocate; the need for further allocations; the inclusion of the site within the Area of Separation; the loss of countryside, woodland, wildlife and recreational opportunities; impact on local roads.
- 3.35 Council's Response: The site belongs to, and is proposed by, the Homes and Communities Agency (HCA). It has advised that technical and environmental work is being carried out and that this will inform a comprehensive development brief and masterplan. This will address the relationship with adjacent land uses, including the open countryside and woodland. As regards the existing business, this is a matter which the HCA will have to resolve with its tenants within the terms of the tenancy. The need to allocate the site stems from the requirement to identify employment land set out in Core Strategy Policy 9. Relatively few site suggestions were put forward for employment uses therefore the alternative options are limited. There is no justification to extend the Area of Separation designation over this site as it would not directly reduce the risk of Grimsargh merging with either Preston or Goosnargh/Whittingham.
- 3.36 **Site EP1.11 – Roman Road Farm:** This proposed employment allocations elicited 21 comments. The issues raised included the potential impact on the adjacent SSS1; the possibility of extending the site; and the archaeological value of the site.
- 3.37 Council's Response: The site is sensitive in that it is adjacent to the SSSI. This is why the Plan refers to the importance of a development brief / masterplan to be prepared to show that development can take place without harm to the SSSI. Similarly, the brief / masterplan will need to ensure that any archaeological issues are appropriately addressed. The possibility of extending the site boundary has been considered and dismissed because there is no need to allocate any further employment land at this time.
- 3.38 **Chapter 8- Protecting and Enhancing the Built and Natural Environment:** 18 comments were submitted in relation to omissions from this chapter. The main issues were the lack of an appropriate policy dealing with biodiversity and ecological networks that would satisfy the Framework; the lack of evidence that proposed allocations have been assessed against the most up to date evidence; and the omission of any reference to the need to consider land quality in development management.
- 3.39 Council's Response: The Council has sought the advice of the Lancashire Wildlife Trust and has included a new policy in the Publication Local Plan on biodiversity and nature conservation. Information was obtained from the Lancashire Environment Record Network and has been assessed against the proposed allocations. A new policy has been introduced to ensure due consideration is given to land quality (contamination) in making development management decisions.
- 3.40 **Policy EN2 – Areas of Separation:** 19 comments were made in relation to this policy. A number of locations were suggested as suitable for designation as Areas of Separation. This included land to the north of Hoyles Lane (in North

West Preston); the whole of Woodplumpton Parish; sites EP1.10 and EP1.11 (currently allocated for employment use) and land to the north west of Longridge (to prevent merger with Whittingham Parish). Other representations sought changes to the boundaries of the defined Areas of Separation to facilitate development, and changes to the wording of Policy EN2 which was considered too restrictive.

- 3.41 Council's Response: The Council has extended the Area of Separation around Grimsargh to include land to the north of Whittingham Road and east of Halfpenny Lane, Whittingham that was previously allocated for housing (Preferred Options reference HS1.26). This is to safeguard the character of this part of Whittingham.
- 3.42 **Policy EN3 – Areas of Major Open Space**: This policy attracted 70 comments. There were concerns about whether the policy as written was in accordance with the Core Strategy, and whether it would either afford adequate protection for the Ingol Golf Course or would be overly restrictive.
- 3.43 Council's Response: The Council has amended the wording of Policy EN3 so that it is consistent with other environmental protection policies and with the Core Strategy
- 3.44 Other Preferred Options sites and policies attracted relatively few comments. Representations were also received concerning sites consulted upon at Issues and Options but which the Council did not propose to carry forward in the Preferred Options. Most notable of these were P048 (Harris Park) and P082 (Deepdale Shopping Park).
- 3.45 In the case of Harris Park, there was support for its allocations for housing but also opposition from those preferring to see its retention as open space. The Council has decided not to allocate the site for housing. Any proposals for development must therefore be considered against national policies and the general development management policies.
- 3.46 In the case of Deepdale Shopping Park, the Council has decided not to afford it any particular status because it does not wish to encourage any further development there which may undermine the city centre. Any development proposals must therefore be considered against national policies and the general development management policies.

Appendix 1

“Sites for Preston” Issues and Options Consultation: Summary of Representations.

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P001	Cottam Hall, Tom Benson Way	Residential	1	0	0	The response states that Cottam Hall is a semi-rural environment and this ethos should be maintained when considering the extent and density of housing development on this Agricultural land. It also states the design brief for part of the development exceeds the current housing density for the area, and the style of housing is also out of keeping with the majority of houses in the area. It suggests that if the area were to be developed a large area of parkland should be created, and off street parking supplied.
P002	Whittingham Hospital (Gotfield Front Field)	Mixed Use	2	0	2	Responses support the Whittingham Environmental Groups recommendation that Gotfield Front Field be preserved in its present state and that no new buildings be allowed on it. Suggestion is made that the field be covenanted to the local community and kept as a buffer zone between the hospital development and the existing communities.
P003	Broughton Business Park, Eastway	Mixed Use	25	2	23	Responses object to the proposals of a business park off Eastway. The general feeling is that Eastway and D'Urton Lane are already heavily congested, and such a development would put increasing pressure on an already busy road network. A number of responses object to a park and ride facility, stating that the current one at Bluebell Way was a "waste of money" and another isn't needed to the north of the city. Many are also worried such a development would devalue properties, increase pollution and cause a road safety risk to children walking to the nearby school. Many responses believe the land should be left to agriculture.
P004	Preston East, Junction 31A, M6	Employment	27	0	24	Responses received overwhelmingly object to P004 citing that the current employment zones in the area, such as Red Scar, are currently under capacity and respondents see no reason why further units should be built when current ones are not full. Other responses highlight the damage such a development would have on Cow Hill, an area used by the residents of Grimsargh for recreational purposes, and a home to numerous species of wildlife. Traffic also is seen as an issue, especially around Junction 31A of the M6 due to the new Spar Warehouse.
P005	Preston East, Western Loop Site, Bluebell Way,	Mixed Use	1	1	0	The response states that as the area is already bound by industry and connected to the road network, the site is suitable for meeting the needs of development.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
	J31A M6					
P006	Deepdale Road Centre, Deepdale Road	More Than One Suggested Use	0			
P007	Scout Hut, Beechway	Residential	0			
P008	Ainsdale House, Ashton-on-Ribble	More Than One Suggested Use	0			
P009	Broughton Vicarage, Garstang Road	Mixed Use	2	0	2	Both responses support the proposal for the site to be "Not Carried Forward".
P010	Land to the North of Hoyles Lane and West of Tabley Lane	Residential	0			
P011	Land to the North of St Marys Church	Open Space/Leisure	0			
P012	Land at Higher Bartle - bounded by Sandy Lane/Hoyles Lane/Lightfoot Lane/M55	Mixed Use	5	4	1	The majority of responses are in favour of development at this site, and object to the proposal of the site to be "Not Carried Forward". Arguments made in favour of the site being suitable for development include the close proximity to public services, such as libraries, doctors and shops, the good transport links into the city through public and private transport and the sites suitable location to be a "sustainable extension to the North West of Preston's urban area." Arguments against development and in favour of the site not being carried forward include congestion on the country roads within the site, as well as Tom Benson Way and that a number of properties in Cottam Village are currently up for sale or empty, therefore no more housing development should occur in this area in the current economic climate.
P013	Land West of Tabley Lane, Cottam	Residential	0			
P014	Land fronting East side of Garstang Road	Residential	2	0	2	Both responses support the proposal for the site to be "Not Carried Forward".

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P015	Site of Ingol Lodge, Cottam Lane	More Than One Suggested Use	0			
P016	421 Garstang Road, Broughton	Residential	0			
P017	Haydock Garage, Nog Tow	Residential	0			
P018	Land south of Stoney Butts, north of Riversway	Mixed Use	1	1	0	The response objects to the site being "Not Carried Forward" on the grounds of being in a flood zone. Instead the response proposes an alternative allocation comprising of a mix of residential development in the northern half of the site, with the rest remaining as open space converted to leisure and recreational use.
P019	Parker Street	Residential	0			
P020	Land off Preston Road	Mixed Use	112	98	7	The majority of responses are in favour of allocation for development of health provisions on this site and object to the proposal to be "Not Carried Forward". The responses state that Grimsargh has no medical facilities and needs more to provide for an increasing population. The objections to development on the site, and therefore being in favour of the site being "Not Carried Forward" are on the grounds of increased traffic levels through an accident blackspot, as well as the proposed development being too large and in the wrong location.
P021	Land West of Lightfoot House, Lightfoot Lane	Residential	0			
P022	Land adjacent to Ashton Basin (Off Tulketh Brow)	Residential	0			
P023	Lea Gate Garage, Blackpool Road, Lea	More Than One Suggested Use	0			
P024	Brethrens Meeting Room, Egerton Road, Ashton	Residential	0			
P025	Land adjacent to Phantom Winger Pub/Hotel, Eastway	Community Use	4	4	0	All responses are in favour of allocating the land for development comprising of community use.
P026	Brockholes, next to J31 M6	Other	0			

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P027	Land off Lightfoot Lane, Fulwood	Residential	1	0	1	The response is in favour of the proposal for the site to be "Not Carried Forward" due to the affects development could have on the local environment.
P028	Land to the East and West of Sandy Lane	Residential	0			
P029	Land to the West of Garstang Road	Residential	2	0	2	Both responses support the proposal for the site to be "Not Carried Forward".
P030	Land off Lightfoot Lane, Fulwood	Residential	1	0	1	The response support the proposal for the site to be "Not Carried Forward".
P031	Land East of Longridge Road, Ribbleton	More Than One Suggested Use	1	1	0	The response supports the proposal to allocate the land for housing use as it will make use of a "semi-derelict" site and conforms with PPS3.
P032	Land and premises at School Street	Residential	0			
P033 & P080	Land off Bluebell Way, Preston East Development Area	Employment	1	1	0	The response supports the proposal for allocating the land for development as it is of "no great aesthetic or ecological value."
P034	Land at "Connemara" Lightfoot Green Lane, Fulwood	Residential	1	0	1	The response supports the proposal for the site to be "Not Carried Forward".
P035	Land to the rear of Preston Road/Ribblesdale Drive	Residential	7	0	7	All the responses object to the land being allocated for development, therefore supporting the proposal for the site to be "Not Carried Forward". The responses indicate such development would be no benefit to Grimsargh as the roads cannot cope with the current traffic levels, therefore any further development will increase traffic levels further. Responses also raise concerns about the potential loss of green space surrounding the village, should such allocation and development occur.
P036	Grimsargh Reservoir and adjoining land, Preston Road	Uncertain	18	0	18	All the responses object to the land being allocated for development, therefore supporting the proposal for the site to be "Not Carried Forward". This is due to the land already being developed as a nature reserve.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P037 & PR/CS/CS4	Queens Retail Park and adjoining land (Horrocks Quarter) off Stanley Street, Queen Street and Church Street	Mixed Use	0			
P038	Land on South side of Lea Road	Residential	0			
P039	Bellway land to the east of Goosnargh	Mixed Use	0			
P040	Tetrad, New Hall Lane	Residential	1	1	0	The response supports the allocation of land for development in this site, however suggests that the allocation be changed to mixed use as they believe developers would struggle to sell all the houses on the site. The response also states that more should be done to regenerate New Hall Lane as a whole, including more community car parking and crossing points to aid the elderly.
P041	Land at Church House Farm, Preston Road	Residential	49	2	35	The majority of responses object to the land being allocated for housing. There are concerns that such a potentially large development will increase traffic congestion on a already congested B road, that crime will increase due to the increased population and closure of the village police station and that wildlife in the area could be seriously affected. There are also concerns that Grimsargh will become another suburb of Preston and lose its village feel. The two responses which were in favour of the land allocation state that such a development would help define the boundary between Grimsargh and Preston by creating a protected buffer zone of countryside.
P042	Land North of Hoyles Lane, Nr Higher Bartle	Residential	0			
P043	Land off Tudor Avenue, Lea	Residential	0			
P044	Land off Blackpool Road/Dodney Drive, Lea	More Than One Suggested Use	1	0	0	The response questioned whether the site was suitable for development as it could be at risk of flooding.
P045	Land to the North of Hoyles Lane and East of Lea Lane, Lea	Residential	2	0	1	The response objected to the allocation proposals on the grounds of the limited infrastructure in place in the area.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P046	2 Blackbull Lane, Fulwood	Residential	0			
P047	Land off Whittingham Lane, Whittingham	Residential	60	1	58	The majority of responses object to the land being allocated for housing. The responses raised concerns over the state of the infrastructure in place including the road network around Halfpenny Lane and the lack of a mains sewer network and drainage problems already experienced in the area. There are concerns that large scale development will remove the distinguishable boundary between Preston and Ribble Valley and the area will lose its rural character and become another suburb of Preston. Concern is also raised over the lack of public facilities which would serve the new development, such as schools.
P048	Grimsargh House Rest Home, Preston Road	Residential	10	0	10	All responses object to the allocation of land for housing on the grounds that the area does not need further development, it will cause traffic congestion and will have a devastating effect on wildlife. Two responses support the proposal for the site to be "Not Carried Forward."
P049	Roman Road Farm	Employment	18	0	17	All the responses object to the proposed allocation of employment land on the basis that the current developments in the area aimed at employment are not being used which is raising the question why build more. Other concerns include the pressure on the road network and the proximity to ancient woodlands and the historic Roman Road.
P050	Land at The Oaks, Longridge Road, Ribbleson	Employment	1	1	0	The response supports the proposal for allocating the land for development as it is of "no great aesthetic or ecological value."
P051	TDG Nexus/ HT Forrest site, Wittingham Road	Employment	10	7	3	The majority of responses support the allocation of the land for employment use but object to the land being allocated for housing. One respondent suggests that only the current footprint of existing buildings should be developed and not the entire site.
P052	Sand Bank Farm, Ashley Road	Employment	0			
P053	Rear the Laund, Whittingham Lane	Residential	15	0	13	The majority of responses object to the proposed allocation but support the proposal for the site to be "Not Carried Forward." The responses raised major concerns of access to the site on a dangerous bend as well as the lack of utility provision in the area.
P054	Maxy House Farm, Sandy Lane, Cottam	Residential	0			
P055	Corporation Street	Mixed Use	0			

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P056	Preston Grasshoppers, Lightfoot Green Lane, Fulwood	Mixed Use	0			
P057	Oak Street	Residential	0			
P058	Land behind Barton Church/Boars Head Pub, off Garstang Road	Residential	0			
P059 & PR/CS/05	Bellway land to the west of Goosnargh	Mixed Use	0			
P060	Frenchwood Recreation Ground and Wildlife Garden, The Esplanade, Frenchwood	Open Space/Leisure	0			
P061	School playing fields & Knoll Side Christ The King Maths and Computing College, Lawrence Avenue, Fulwood	Open Space/Leisure	0			
P062	Land to the North of Lightfoot Lane	Residential	2	0	2	Both responses support the proposal for the site to be "Not Carried Forward" on the basis that development will harm the local environment and the suggestion that no further development is needed so close to Cottam and Whittingham.
P063	Land at Bank Hall Farm	Residential	1	0	1	The response supports the proposal for the site to be "Not Carried Forward".
P064	Land at Church House Farm	Other	34	1	30	The majority of responses object to the land being allocated for development, with concerns raised over the levels of traffic any development would bring onto a B road. Responses also questioned if the land required allocation for commercial or employment purposes, when existing sites in the area are not being used. Concerns were also raised about Grimsargh losing its rural feel if it were to be "surrounded" by new industrial estates. The one response supporting the allocation stated in order for such development to occur, large scale upgrade works would have to be undertaken on the infrastructures in and around Grimsargh.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P065	Land at Lightfoot Green Lane, Fulwood	Residential	2	1	1	One response received supported the proposal for the site to be "Not Carried Forward" on the basis that development in the area would have an adverse effect on wildlife. However the other response asks for the council to reconsider the proposal of not carrying the site forward, due to the fact the site is ideally located for housing development with all the relevant infrastructure already in place.
P066	Parkinson House Farm, Whittingham Lane	Residential	0			
P067	Rydal Mount, 42 Woodplumpton Road	Residential	5	0	5	All the responses object to the land being allocated for housing development, on the grounds that the access road is currently too narrow, the current drainage system cannot cope and there are very few local amenities.
P068	West View Farm, Woodplumpton Road	Residential	3	0	3	All responses object to the land being allocated for housing.
P069	Rear of 154 Hoyles Lane, Cottam	Residential	0			
P070	Preston College, Park Campus, Moor Park Avenue	Residential	0			
P071	Ingol Golf Club, Tanterton Hall Road, Ingol	More Than One Suggested Use	131	0	131	All of the responses object to the land being allocated solely for housing, however a minority express some support for a mix of uses, comprising of housing, leisure facilities and open space. The majority of responses call for the land to remain as open parkland as any large scale development would cause traffic issues around Ingol.
P072	Land to the rear of Preston Road/Ribblesdale Drive	Residential	5	0	4	The majority of responses object to this land being allocated for housing. The main concerns centre around the increase in traffic levels in the village, the lack of amenities within the village and the potential loss of wildlife habitats on the proposed site.
P073	Land at Boyes Farm, Fulwood	Residential	4	1	3	The majority of responses object to this land being allocated for housing. The responses state the land is of important agricultural use and should be kept that way as there is "already enough residential development in the area." Concerns also raised about the level of traffic any development would create on D'Urton Lane.
P074	Eastway Nurseries, Eastway, Fulwood	Residential	1	1	0	The response supports the allocation of land for housing, stating the site is accessible and is in a low risk flood zone.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P075	Land at Lightfoot Lane, Preston	Residential	1	0	1	The response supports the proposal for the site to be "Not Carried Forward" due the damage any potential development would have on the wildlife in the area.
P076	Land formerly known as Haydock Grange, bounded by Hoyles Lane, Sandy Lane and Tabley Lane	Residential	1	1	0	The response objects to the site being "Not Carried Forward" and asks the council to reconsider. The response states the site is in a "desirable location" and would be a welcome extension to the urban area. It continues to state that the site is owned by the developer therefore development could begin within the timescale suggested in the draft Core Strategy.
P077	Land at Boyes Farm, Fulwood	Residential	5	1	4	The majority of responses object to this land being allocated for housing. The responses state the land is of important agricultural use and should be kept that way as there is "already enough residential development in the area." Concerns are also raised about traffic levels on D'Urton Lane, as the road is already heavily congested during rush hours, as well as the increase in noise levels in the area. Responses also questioned if the quality of development would be in keeping with the local area.
P078	Oak Nurseries, Pudding Pie Nook Lane, Goosnargh	Residential	0			
P079	Oak Nurseries, Pudding Pie Nook Lane, Goosnargh	Residential	0			
P081	Ingol Golf Club, Tanterton Hall Road, Ingol	More Than One Suggested Use	1	1	0	The response supports the proposal for a mixed use development including the production of bio-fuels. However the response reserves judgement on how viable such a proposal would be, but supports the idea of keeping the land as open parkland.
P082	Deepdale Shopping Park	Mixed Use	1	1	0	The response supports the proposed allocation of land to retail and commercial use.
P083	Land to North of Lightfoot Lane, Preston	Residential	3	3	0	All the responses support the proposed allocation of land to housing. The responses state the site is "deliverable" and would help "reduce the extent of the expansion [of the urban area] into the countryside." The responses also state the site is close to existing services and amenities, and that no public access would be infringed as the site is currently all privately owned.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P084	Harris Park, 253 Garstang Road, Preston	Residential	49	37	12	75% of responses supported the proposed allocation of land to housing, of which many responses contained lists of over 100 names who further supported the proposal. Those in favour believe housing will complement the area as currently the land has been unused for nearly 2 years and has been a magnet for antisocial behaviour. There is also the belief that any traffic concerns will prove unfounded, as the site currently operates as a business park therefore residential traffic levels will not be any higher than those currently experienced. Those in favour also argue that the land is not a community asset, as those objecting to the proposal believe, as the land is in private ownership. Those objecting to the allocation do so with the argument that the land is in a conservation area, therefore no development should occur, and that the land should be restored as a public playing field and cricket pitch.
P085	Argyll Road Depot	Mixed Use	0			
P086	Moor Park Avenue Depot	Residential	0			
P087	Meadow House	Affordable Housing	0			
P088	Adelphi House	Affordable Housing	0			
P089	Truro Place	Affordable Housing	2	0	2	Both responses object to the proposal of allocating the land for housing. One response argues the land should be kept as open space as there is currently a lack of open spaces in the area, whereas the second response requests the land be allocated as "Mixed Use" as opposed to just housing, thus incorporating some open space including a children's play area.
P090	YMCA, Samuel Street	Residential	0			
P091	Grimsargh Vicarage, Preston Road	Rural Exception (Affordable Housing)	44	9	32	The majority of responses object to the land being allocated for affordable housing. Concerns include the pressure extra houses will put on the road network and school system, as well as claiming there is "no demand" for affordable houses in Grimsargh. The responses also suggest the Vicarage should become a listed building, in order to secure its future as a landmark of the village. Responses in favour of the allocation do so due to the fact the building is no longer in use as a vicarage. However many of the responses in favour suggest the development should incorporate the existing building rather than demolishing it.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P092	Fell View/ Dixons Lane	Rural Exception (Affordable Housing)	56	1	51	The vast majority of responses object to this land being allocated for housing development. The objections are raised on the grounds of increased traffic levels in the village as well as access to the site and congestion on Fell View. Other concerns include the location of the site away from the centre of the village, and outside its boundary, with no easy access to shops or services. Drainage of the site is also raised as the site has a history of flooding after heavy rainfall. Residents are concerned the introduction of Affordable Housing could also increase crime levels in the village.
P093	Helms Farm, Broughton	Rural Exception (Affordable Housing)	64	0	64	All of the responses object to the land being allocated for housing. The overwhelming concerns are traffic issues including increased congestion on the A6 at the Broughton Crossroads, congestion on Woodplumpton Road and the access to the site down narrow residential lanes. Other concerns relate to the lack of services in Broughton, including infrequent public transport links and already over-subscribed local schools. There is also concern further development could lead to the loss of the boundary between Barton and Broughton.
P094 & P095	Land North/South of Jepps Lane, Barton	Rural Exception (Affordable Housing)	402	2	397	The overwhelming majority of responses object to the two sites being allocated for housing. The biggest concern is the increase in traffic on Jepps Lane and subsequently the A6. Other big concerns include the lack of services and amenities close by and the lack of suitable infrastructure in place in regards to sewage and drainage as the site has a history of flooding. The two responses in favour of the land being allocated support the proposal of affordable housing as there is "a need for a younger generation with families to support local services."
P096	Dobsons Farm, Broughton	Rural Exception (Affordable Housing)	20	0	19	The majority of responses object to the site being allocated for affordable housing. The main concerns are around the traffic congestion that such a development would cause at the Broughton crossroads. Responses also indicate that if affordable housing was to be built in Broughton, more shops and services should also be built as currently there are not enough. Responses also state there is no belief so many affordable houses are needed in Broughton.

Preston Local Plan Publication Version July 2013 – Statement of Consultation

Site Reference	Site Name	Suggested Use	Total Responses Received	Number Supporting Allocation	Number Objecting Allocation	Summary of Responses
P097	Land to the East of Plumpton Field, Woodplumpton	Rural Exception (Affordable Housing)	47	1	44	The majority of responses object to the site being allocated for affordable housing, with the main concerns being traffic congestion and the lack of infrastructure. In terms of infrastructure, concerns are raised over the current lack of drainage in the village, including raw sewage overflowing into the brook, and the lack of local services and bus links. In terms of traffic, concerns are raised over the access to the site, with the existing road being too narrow for large and heavy vehicles which such development would bring. Other objections include the response that there is no demand for affordable housing in Woodplumpton, as well as Woodplumpton being the wrong location for affordable housing as there are little or no job opportunities in the area. The one response in support of the allocation suggests that if development was to occur, access should be changed to "The Orchard."
P098	Red Scar Site H	Employment	1	1	0	The response states that as the area is already bound by industry and connected to the road network, the site is suitable for meeting the needs of development.
PR/CS/01	Preston Jaguar, Portway, Preston	More Than One Suggested Use	0			
PR/CS/02	271-273 Brook Street, Preston	More Than One Suggested Use	0			
PR/CS/03	Land between Dorest and Saunders Rake, Whittingham	Residential	0			
PR/CS/07	Aaron House, 500 Whittingham Lane, Goosnargh	Residential	0			

Totals	1266	186	1034	<i>NB: The remaining responses (46) expressed no clear support or objection to specific site suggestions. These responses will be taken into consideration and will help inform the Preferred Options.</i>
