To: HED DPD Publication Consultation,

I am writing to object to the proposal of the land adjacent to the BKW site being put forward by the Ribble Valley in their HED – DPD as their preferred option.

My reasons for objecting are as follows:

Transport – there will be increased traffic / no new infrastructure to cope with the demand / entrances on a dangerous stretch of road.

Environmental – this is the gateway to the Ribble Valley / there are concerns over siting of sewage plant / overlooked by AONB and biological heritage sites / travelling north and south will travel through conservation areas of St Lawrence, Market Place and Stonebridge.

Local schools – staff and parents are concerned about children’s welfare – pollution, noise and safety / superficial ‘improvements’ without consultation with Hillside School / increased traffic past St Cecelia’s School and children’s playground on Lower Lane.

Jobs – are any new jobs being created or are they being transferred from existing sites?
