**Subject:** Schedule 19 proposals - Mellor

Dear Sirs

Mellor Parish Council met on 4th May 2017 and Schedule 19 consultation had been circulated to members.

It was then resolved to object to Schedule 19 regarding the proposals for a site at Mellor, adjacent to Weavers Fold.

There is a considerable flooding issue in Mellor, which seems to have been exacerbated by the poor drainage at Weavers Fold.

Members are of the opinion that the road drains on Mellor Lane from Weavers Fold were at least partially blocked by concrete during the build.

Therefore, since the road drain system is currently inadequate, further new housing would worsen this problem & increase the flooding in Mellor.

Mellor Parish Council is further concerned that without further provision for additional school places, the addition of affordable type housing is not in accord with actual needs of the possible new residents.
