**Subject:** Planning Objections - Hawthorne Place, Clitheroe. BB7 2HU

Further to my recent objection, that has apparently not been received at the council, please see below my concerns in relation to the proposed new development at the above address.

I have been a resident on this road now for around 18 months and have had hand experience of the parking issues. The road is very narrow with parking on both sides, and would not withstand additional traffic from more properties and absolutely not from the machinery involved in a development.

The inspection of the road took place at a time when families were away and also when the road may have been quiet in terms of people using it as parking whilst working in town. This does not represent a true picture of what daily life is like on the road.

There is also a real issue with traffic trying to access under the Waddington road bridge, especially when there has been heavy rain. This becomes easily flooded with the overflow of the culvert that runs at the back of Hawthorne place.

This development would be extremely disruptive to the road and not outweigh the concerns with more benefits.

Kind Regards,

[REDACTED]
