Subject: Consultation - Hawthorne Place Housing

MM132

How is it intended contractors vehicles will access the site to build the houses ?

Where will be the access roads to and from the site after completion of houses ?

I raise this due to the immense disruption & chaos when the previous new houses were added to the top of Hawthorne Place.

Since these were completed there is regularly traffic chaos anyway on Hawthorne Place with cars double parked all the time meaning single file traffic passable at all from top to bottom.
Hence i cannot see how contractors waggons could possibly access the site or , following completion , how the extra traffic could then flow up and down Hawthorne Place ?

With kind regards ,
