MM2 - SItE Devpr3 -land off Hawthorne Place, Clitheroe

MM129

Hawthorne Place is already a narrow and congested street. Cars park on both sides of the street making it single carriageway. Access from Waddington Road is often prevented due to traffic trying to exit Hawthorne Place, often for many minutes causing a bottleneck on Waddington Road. In addition the surface of the road on Hawthorne Place is appalling with many potholes. The prospect of a further 40 houses generating 40 to 60 cars on Hawthorne Place is totally unacceptable.
