Subject: Proposed building at Hawthorne farm!
Attachments: IMG_20180825_123235.jpg

Very concerned regarding proposed building at Hawthorne farm! We live on Park Ave, when we moved here 26years ago it was stated they could never build in back field due to big pipe line going across to ici!!does this not now matter. Directly at the rear of our property on the survey map is a sink !!!! And also on is issue s could you please explain what that is. I,m concerned regarding the amount of water that appears ! picture enclosed !! is this land suitable for building on?? what impact would it have! on surrounding area Furthermore all traffic will exit on to waddington road ,where other new housing traffic is also coming out at , it appears that is a recipe for disaster looming!! Last but not least!!where are children going to go to school? What about doctors?
