Dear Sir

I write to object strongly to the above proposed development, with the possible access along Park Avenue. It is already a problem to join Waddington Road in order to get into town and would become much worse if this development is allowed. I note that over the last few years a traffic survey was carried out on Waddington Road, but very conveniently for the Council this was carried out during school holidays and therefore a much reduced traffic flow.

Why is this lovely market town of ours in danger of being ruined by overdevelopment and possible traffic gridlocks.
