Subject: No more houses

MM 123

I am utterly dismayed to learn that even more house building is being put forward for approval in our beautiful town.

While traveling around, I've always been so proud to say 'I live in a small market town in the northwest called Clitheroe, still full of privately owned, individual shops, surrounded by the beautiful, picturesque Ribble Valley' and I am genuinely concerned that this is being systematically eroded by planners with no thought or care for the future of our town. **Where are the extra schools being built? When and where will the new Health Centre be built? I've just waited six weeks for a doctors appointment!**

Indeed I seriously suspect there is a hidden agenda here between all this extra house building and the abhorrent new 'Market' plans being put forward which seem to be designed with a larger town in mind.

Therefore I wish to strongly object to more houses being built in and around Clitheroe in the foreseeable future.

Mrs Y M Adey, Clitheroe and Ribble Valley resident 40 years.
