**Subject:** Proposed housing development at High Moor

31 AUG 2018

FAO

We wish to voice our strong objections to the possible additional 100 houses which could be built on farmland at High Moor, off Pendle Road. It is hard to believe that this is a serious proposal with the Halfpenny Meadows development going ahead for 1000 plus houses in the same area. Not only are we losing our lovely green fields and footpaths which are so important to us for our local walks, but all traffic problems which are building up are being completely ignored.

Clitheroe is fast losing its character as a lovely market town and becoming a commuter town without the infrastructure to support it.

We are encouraged to put forward our objections but have little confidence that public opinion ever seems to win the day. We ask that just for once whoever holds the power to approve or disapprove of this further development will listen to local rate-paying residents who vote them onto the council in the hope that they will fairly represent them.
