HED NPD SUBMISSION

Site 24 ADJ HUGH HEAD

Thank you for the invitation to comment on the above. We have lived at the above address for 30+ years.

The Woodfields and Meadow view developments, now a proposed third one on Site 24, have obviously led to permanent losses of greenery, habitats, the unique nature of this area being irreversibly changed.

Further, the traffic impact already causes walking to be less enjoyable; less peaceful.

Whatever financial pressures and targets cause the Council to propose this step - and we are aware of this aspect, - we can only ask that Site 24 is left alone.

Yours sincerely,
