Subject:

We write to comment on the PMM AHA.

We recognise the need for housing however, feel not enough thought and planning has gone into:

- \* access into and out of Clitheroe
- \* the road network in Clitheroe
- \* the availability of medical care doctors, dentists  
school numbers
- \* the change in **quality** of existing residents lives
- \* parking

This list could go on!

As regards to site DEPR 3

- \* access into Hawthorne Place is a problem, residents from Waddington Road park and it is used by workers parking for the day.
- \* we believe that there is some legislation now about new buildings near a Chemical plant
- \* there was a drop in the numbers of wildlife species in the area after the development 20yrs ago, this will happen again !
- \* the main gas supply going up to Johnson Matthey last time they built there was a serious explosion outside our house.
