Subject: Proposed main Modifications: Additional Housing Allocations

To whom it may concern,

I strongly disagree with the so called consultation exercise that has been proposed for the three sites in Clitheroe.

Also why does one Councillor from Whilpshire have the right to say where these be done surely he is classed as a NIMBY just to protect his voters.

I understand that houses to be built but why all in one place CLITHEROE when you have already given permission to build 2,600 houses, this is approximately 40% of the original housing figure.

The villages will soon be disappearing because of lack of housing.

When are you going to start giving permissions for more schools and doctors surgeries!! & better access roads to the new developments to help with the extra traffic that is now in the town!!.

May I suggest that you look at the land register title to look into the RESTRICTIVE COVENANTS for Highmoor Farm, Clitheroe.

Thanks

A very passionate resident of Clitheroe
