## Introduction

- 1.1 Local Authorities are now required, in accordance with The Community Infrastructure Levy (Amendment) (England) (No.2) Regulations 2019, to produce an Infrastructure Funding Statement (IFS) annually that sets out details about planning obligation receipts and anticipated expenditure.
- 1.2 The publication of this Infrastructure Funding Statement (IFS) is a legal requirement arising from the Community Infrastructure Levy Regulations 2019. All LPAs must publish an annual report covering both CIL and S106 obligations regarding the monies secured, received, held and spent, as well as provision of certain on-site infrastructure, such as affordable housing. This is the third IFS published by the council and complies with the requirement to cover the financial year 2021/22 (1st April 2021 to 31st March 2022). The purpose of this document is to provide clarity and transparency to local communities and developers on infrastructure expenditure.
- 1.3 The intention is that the data and infrastructure funding statements will give policy makers better insights into how developer contributions are supporting new development and local infrastructure.
- 1.4 This report provides a summary of financial contributions the Council has secured through Section 106 agreements (s106) from new developments.
- 1.5 The report provides –
  - An overview of Planning Obligations
  - Contributions sought by Ribble Valley Council (both on-site and off-site)
  - S106 contributions secured during the 2021/22 monitoring period
  - The s106 contributions received by the Council during the 2021/22 monitoring period
  - The s106 contributions utilised by the Council in the 2021/22 monitoring period
  - Contributions delivered on site from S106 contributions during 2021/22 monitoring period
  - Previously secured s106 contributions
- 1.6 The information included in the report will be updated annually and published on the Council's website. This will ensure the most up to date information on the amount of developer contributions received by the Council from new developments, in addition to information on where these monies have been spent is readily available to members of the public and other interested parties.
- 1.7 As part of the developer contributions annual requirement, three separate CSV excel files have been created which are available to view on our website.

## Planning Obligations

- 2.1 Planning obligations are legal obligations entered into to mitigate the impacts of a development proposal.
- 2.2 This can be via a planning agreement entered into under Section 106 of the Town and Country Planning Act 1990 by a person with an interest in the land and the Local Planning Authority; or via a unilateral undertaking entered into by a person with an interest in the land without the local planning authority.
- 2.3 Planning obligations run with the land, are legally binding and enforceable. A unilateral undertaking cannot bind the Local Planning Authority because they are not party to it.
- 2.4 Planning obligations assist in mitigating the impact of unacceptable development to make it acceptable in planning terms. Planning obligations may only constitute a reason for granting planning permission if they meet the tests that they are necessary to make the development acceptable in planning terms. They must be:
- necessary to make the development acceptable in planning terms;
  - directly related to the development; and
  - fairly and reasonably related in scale and kind to the development
- 2.5 Key Statement DS1 of the Adopted Core Strategy sets out that Planning Obligations will be used as a mechanism to deliver development that contributes to the needs of local communities and sustainable development. Contributions can either be in kind or in the form of financial contribution with a clear audit trail of how any monies will be spent and in what time frame.
- 2.6 Obligations will be negotiated on a site-by-site basis. The Council cannot ask for contributions via s106 planning obligations in certain circumstances (as set out within the Planning Practice Guidance):
- Planning obligations for affordable housing should only be sought for residential developments that are major developments...For residential development, major development is defined in the National Planning Policy Framework as development where 10 or more homes will be provided, or the site has an area of 0.5 hectares or more. For non-residential development it means additional floorspace of 1,000 square metres or more, or a site of 1 hectare or more, or as otherwise provided in the Town and Country Planning (Development Management Procedure) (England) Order 2015.*
- 2.7 Once the s106 has been signed, it is an obligation, but it will only be realised if the planning permission is implemented and reaches the trigger point for payment. Trigger points can include the commencement of the development or occupation of dwelling houses and for larger developments are often phased. When planning permission is granted, the s106 obligation is registered as a land charge which stays with the land, obligating any future owners until the terms are met.
- 2.8 Contributions to education, transport and highways have been secured through the s106

process for Lancashire County Council, with the County Council signatories to the Agreement, and will, in most cases, be paid directly to them for use as specified in the s106 Agreement. Lancashire County Council monitor and report on these separately (the tables identify which obligations will go directly to LCC).

- 2.9 Please note that data on developer contributions is imperfect because it represents estimates at a given point in time and can be subject to change. However, the data reported within this document is the most robust available at the time of publication.

## Contributions sought

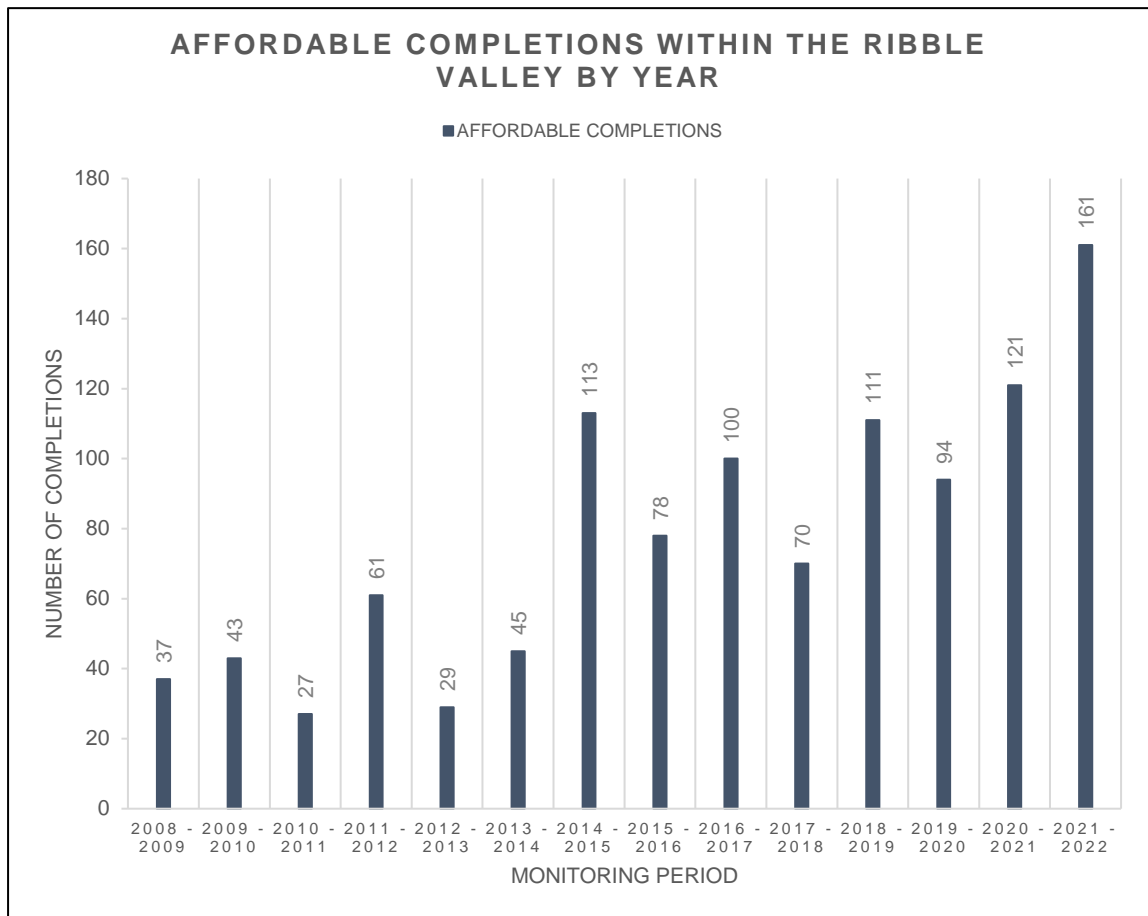

### *Housing – affordable housing*

- 3.1 Key Statement 3 of the Adopted Core Strategy sets out the affordable housing requirements associated with new development as follows:
- 3.2 Within the settlement boundaries of Clitheroe and Longridge, on housing developments of 10 units or more dwellings (or sites of 0.5 hectares or more, irrespective of the number of dwellings) an element of affordable, local needs housing will be required on all schemes. The Council will seek affordable housing provision at 30% of units on the site.
- 3.3 In all other locations in the borough, on developments of 5 or more dwellings (or sites of 0.2 hectares or more irrespective of the number of dwellings) the council will require 30% affordable units on the site.
- 3.4 Within the negotiations for housing developments, 15% of the units will be sought to provide for older people on sites of 10 units or more. Within this 15% figure a minimum of 50% would be affordable and be included within the overall affordable housing threshold of 30%. The remaining 50% (ie the remaining 50% of the 15% older people's element) will be for market housing for older people.
- 3.5 Affordable housing should be provided on-site in the first instance, although off-site contributions or a payment in lieu will be allowed in exceptional circumstances. In such circumstances the Council will identify suitable schemes for utilising the commuted sums to increase the supply of affordable housing within the Borough.
- 3.6 In the period 2021/22, 161 affordable dwellings were completed within the Borough.

*37 Affordable properties have been secured as part of development at Bowland Meadow, Longridge.*

Graph one indicates that this surpasses the delivery within the previous monitoring period and is the highest ever provision of affordable dwellings completed within a single year in the Ribble Valley.

Graph 1: Bar Chart displaying affordable housing completions within the borough.

### Public Open Space and Recreation

- 3.7 The Council recognises the importance that open space and green infrastructure makes to the quality and attractiveness of an area and the pressures that can exist to redevelop facilities. Consequently, the Council has sought to protect recognised areas of public open space and to put in place a mechanism to secure additional facilities where it is supported by evidence when considering proposals.
- 3.8 Policy DMB4 of the Adopted Core Strategy confirms that on all residential sites of over 1 hectare, the layout will be expected to provide adequate and usable public open space.
- 3.9 On a site-by-site basis, the council will also negotiate for provision on smaller sites or seek to secure an off-site contribution towards provision for sport and recreational facilities or public open space within the area where the overall level of supply is inadequate.
- 3.10 The off-site leisure contribution is calculated on the basis of occupancy ratios at a rate

of £216.90 per person as follows:

- 1 bed unit - 1.3 people
- 2 bed unit - 1.8 people
- 3 bed unit - 2.5 people
- 4 bed unit - 3.1 people
- 5 + bed unit - 3.5 people

3.11 The off-site contribution will be used to improve existing facilities within the Borough or to support the provision of new facilities for the benefits of our residents and visitors.

*Holme Play Area, Sabden – Supported by S106 contributions.*

### *Longridge Loop*

3.12 The Longridge Neighbourhood Development Plan (2018 – 2028) recognises that the route provides an opportunity to create a safe route around the Town. Where appropriate, commuted sums are secured from residential developments in Longridge to assist the Town Council with delivering this route.

### *Biodiversity*

3.13 Key statement EN3 of the Adopted Core Strategy sets out that new development in vulnerable areas should ensure that risks can be managed through suitable measures, including through the conservation of biodiversity, improvement of ecological networks and the provision of green infrastructure. The Council's commitment to conserving and enhancing the area's biodiversity and geodiversity is reiterated on Key Statement EN4. Where appropriate off-site commuted sums will be secured to enhance biodiversity within the Borough.

*Primrose Lodge, Clitheroe.*

## Section 106 Expenditure

- 6.1 The Council is committed to ensuring that the necessary infrastructure required to enable development to be accommodated will be delivered. The Council recognises the importance of delivering all types of infrastructure needed to support growth and is committed to maximising the benefits secured from development.
- 6.2 Table 3 sets out the S106 contributions which were utilised within the 2021/22 financial year within the Ribble Valley. This equates to **£86,362.69**
- 6.3 Most expenditure within this financial year has been utilised to deliver improvements to playgrounds, play areas and other recreational routes within the Borough using off-site leisure contributions. Whilst the preference of the Council is for open space and leisure facilities to be delivered on-site through new developments, in the rare instances where on-site delivery is not possible a commuted sum will be secured to enable the uplift of existing infrastructure belonging to both the Council and Parish Councils within the vicinity of the development.

## Current Section 106 balances

- 7.1 As a result of the income and expenditure set out above, the closing balance for the period 1 April 2021 – 31 March 2022 (2021/22) is **£581,018.36**.
- 7.2 When this figure is added to the closing balance at the end of the periods 2019-20 and 2020-21, the total Section 106 balance is **£2,182,360.77**.
- 7.3 For a detailed breakdown of Section 106 Agreements please refer to Appendix 1 – ‘Schedule of S106 Agreements’ where a full schedule of contributions, scheme details, receipted and spent contributions are detailed.
- 7.4 Of the total balances detailed above, whether monies are committed to a specific project or are currently unallocated varies depending on the nature of the contribution and the service area within which it sits.

## Obligations Delivered on Site

- 8.1 The Council’s preference is to deliver affordable housing on site to create mixed, sustainable communities. In 2021/22, 161 affordable homes were delivered on new development sites of varying size within the Borough as set out below. This surpasses the delivery of 121 affordable units in the previous year which itself was a record for the borough.

## Monitoring Fees

- 9.1 The Community Infrastructure Levy (Amendment)(England)(No.2) Regulations 2019 now allow Local Authorities to charge a monitoring fee through section 106 planning obligations, to cover the cost of the monitoring and reporting on delivery of that section 106 obligation.
- 9.2 Monitoring fees can be used to monitor and report on any type of planning obligation, for the lifetime of that obligation. However, monitoring fees should not be sought retrospectively for historic agreements.
- 9.3 The regulations allow monitoring fees to be either a fixed percentage of the total value of the section 106 agreement or individual obligation; or could be a fixed monetary amount per agreement obligation; or Authorities may decide to set fees using other methods. However, in all cases, monitoring fees must be proportionate and reasonable and reflect the actual cost of monitoring.
- 9.4 Authorities must report on monitoring fees in their infrastructure funding statements. Therefore, the following monitoring fees have been added to s106 agreements associated with planning applications which have been signed from 1<sup>st</sup> April 2021. The fees set out below are considered to be proportionate and will contribute to the Council’s reasonable costs of monitoring each obligation.
- 9.5 Monitoring fees will be reviewed annually to reflect up-to-date costs. To clarify, the fee will be added to the s106 requirements.

*Table 5- Monitoring Fees*
